## Indian Judge Convicts KKK Member

### Gives Him Lecture On Visiting Area To Create Discord

LUMBERTON, N.C. (AP) — An Indian judge today convicted a Ku Klux Klansman of carrying a concealed weapon and of public drunkenness at a KKK rally near here last Saturday night that Indians broke up with gunfire.

Asst. Resorder's Court Judge Lacy Manor gave the Klansman, James Garland Martin of Reidsville, N. C., a lecture before giving him a 60-day suspended sentence upon payment of a \$60 fine and court costs. It could have been two years and \$100 fine and costs.

"You came into a community where there is a happy, contented people who frown on violence," the 55-year-old judge told the Klansman. Martin, along with about 50 other Klansmen, had been chased off a field near Maxton by a band of Lumbee Indians who fired rifles and shotguns into air and earth amid wild whoops. "You came with a gun. Obviously you did not bring good will."

In low, measured tones, the judge continued: "Our people (Indians) can't understand why you would want to come among a happy people and bring and create discord."

"You have helped to bring about nationwide advertisement to a people who do not want that kind of advertisement — who only want to create a community that would be an asset to our nation."

"If your organization had something worthwhile to offer us we would be happy to have you. But the history of your organization proves that it has nothing to offer."

Judge Manor told the defendant, shifting weight from foot to foot, that he was being tried as an individual violator of the peace — not as a klansman.

## AEC Head Describes Pessimism of US As 'Almost Pathological'

NEW YORK (AP) — Lewis L. Strauss, chairman of the Atomic Energy Commission, says the pessimism and doubt over U.S. scientific prowess stirred up by the Soviet earth satellites is "almost pathological."

He says this country is far ahead in nearly all fields of technical and scientific accomplishments.

Strauss spoke at a dinner of the Lotos Club in his honor. The United States, he said, is well ahead of all other nations in the atom's peaceful uses.

The national mood, manifested in the last few months, is disturbing and unhealthy, he added.

"There is no place in our thinking for pessimism, gloom, despair," he said. "A year from now, if the public remembers, it will be heartily ashamed."

## Hits 'Unbelievable' Policy

### Science Leader Calls Travel Limit 'International Spitball'

WASHINGTON (AP) — A scientific leader today described some U.S. restrictions on visiting Red scientists as "silly little international spitballs."

Dr. Warren Weaver, vice president of the Rockefeller Foundation, said the United States has a "queer and unbelievable" policy on such visits that makes the nation look ridiculous.

His comments were contained in testimony prepared for the House

Government Information subcommittee's inquiry into the government role in science.

The State Department has restricted visits of Communist scientists on diplomatic and security grounds and also follows a tit-for-tat policy on restrictions Russia places on U.S. scientists.

Weaver, a board member of the government's National Science Foundation and a past president of the American Assn. for the Advancement of Science, listed these examples in saying U.S. policy hurts needed exchange of scientific data:

1. A Russian can visit Massachusetts Institute of Technology in Cambridge, Mass., with its vast store of important scientific activities, but cannot go to the Harvard Medical School "because that is across the line in Boston and Boston has been ruled out of bounds."

2. A U.S. government-approved invitation was issued in 1955 for a 1959 meeting of the International Congress of Astronomy here. Now, he said, U.S. officials are debating whether astronomers from the Chinese mainland should be allowed to attend.

3. Exceptions to the usual restrictions have been granted in cases involving cartoonists and Olympic athletes, but U.S. officials "continue to be sticky about scientists."

"This sort of petty retaliation raises questions concerning our standards of national dignity," Weaver said.

## Austria Announces It Is Ready for Part In East-West Talks

VIENNA, Austria (AP) — The government of militarily neutral Austria told Moscow today it is willing to participate in a Soviet-proposed East-West conference if that is the desire of all participants.

Soviet Premier Bulganin in a letter Dec. 10 proposed Austria be invited to a summit conference. Bulganin said Austria, situated in the heart of Europe, has a great interest in peace and could make a significant contribution toward easing tensions.

Chancellor Julius Raab made his reply public in Parliament. The note said Austria's contribution to such a conference would be limited but that would not restrain Austria from offering its fullest services.

## Tank Car Explodes, Causes Many Injuries

NIAGARA FALLS, N. Y. (AP) — A railroad tank car loaded with a chemical exploded with a massive roar today, shaking this area for miles around and causing many injuries.

Hospitals reported a steady parade of emergency cases but no serious injuries. Several pupils in Hyde Park Elementary School were reported cut by flying glass. Other schools also reported broken windows from the blast.

The explosion occurred shortly after 9:30 a.m. near the northeast city line. Police reported electric and telephone service in the area disrupted.

A police cordon was thrown around the area in the fear of a boxcar that caught fire from the explosion might set off other chemical cars.

## Rooster Is Entered As Defense Evidence

ALICE, Tex. (AP) — A rooster was entered in evidence yesterday in the aggravated assault trial of Edward Cox, 25, Prentiss, Tex.

Defense attorney J. Earl Barnhouse told the court the rooster, fitted with razor sharp gaffs, entered a free-for-all fight and inflicted the injuries his client was accused of causing.

Judge Wash Storm Jr. found Cox guilty of simple assault and fined him \$25 and costs.

## Calhoun Buildings Ruined

### Fire Destroys Two Businesses, Causes Crippling Damage To Third Wednesday

A raging blaze of undetermined origin struck a paralyzing blow at the small town of Calhoun Wednesday morning as the community lay buried under one of the heaviest snowstorms in recent years.

The blaze completely destroyed two major business firms and severely damaged two others. Destroyed were the Eugene Masters Drug Store, and the Lewis Barrow Grocery Store, the only grocery and drug concerns serving the community of some 500 people. The flames were believed to have originated near the furnace of the drug store.

Water and fire damaged the building standing at the corner of the town square near Highway 52, which is the former Chick and Combs Grocery but which has been used as a storeroom for the past few months. On the other side of the main blaze, which centered around the grocery and drugstore, water and fire damaged the Carpenter Cafe.

The fire was discovered about 7:45 a.m. when residents noticed smoke coming from the drug store, which had not opened for business yet. This building was completely destroyed in a matter of minutes, witnesses reported. The flames quickly spread to the grocery store and it, too, was quickly destroyed. A fire wall between the grocery store and the Carpenter Cafe prevented further spreading of the flames. Equipment was carried from the cafe but was damaged by water.

The Calhoun fire department, headed by Chief Rip Barrow, arrived and saw the blaze was out of control, and Mayor Bradley called for help from neighboring towns. By the time the fire was brought under control at 10 a.m., fire-fighting equipment and men from Whiteman Air Force Base, Clinton and Windsor had arrived to help.

Heavy damage was suffered by the Chick and Combs storehouse. Windows were broken and a huge canopy in front of the building was destroyed. However, paint, meat cases, coolers and hardware stored in the building were not damaged.

Firemen called from nearby towns had some trouble getting to the blaze over hazardous roads. The Windsor and Clinton units were the closest, and arrived first.

The Whiteman AFB unit, which was made up of a pumper and a tanker, responded to the second emergency call the base had received since the storm began. The first call was for assistance Tuesday in clearing a traffic jam at the intersection of Highways 40 and 13.

The call for help came from the Missouri Highway Patrol, which reported a Greyhound bus, carrying more than 40 passengers, five trucks and 15 motor cars were stalled at the Higginsville Junction.

Response to the call was made with a seven-ton wrecker, carrying a crane, and a pickup truck with necessary help. The equipment and men cleared the junction in short order.

On their way to Calhoun Wednesday the firemen from the WAFB fire department were routed through Clinton, and were directed and assisted by the Clinton police department during the trip.

Calhoun is between Windsor and Clinton on Missouri Highway 52.

If you fail to receive your Sedalia Democrat, please call TA 6-1000 before 6:30 p. m.

## 'Blue Crutch' Drive Adds to Polio Fund

More than \$200 was added to the polio fund drive at the end of "Blue Crutch" day conducted by American Legion Post No. 16 in Sedalia last Saturday.

U. L. Howerton, chairman of the drive, said \$206.46 worth of the tiny blue lapel crutches were sold by Smith-Cotton's Spiz Club girls who worked the downtown area.

Spiz girls who volunteered to help out in the drive were Mary Lou Cook, Jackie Wilson, Donna Lynn, Loyce Curtis, Barbara McMackin, Sharon Vedder, Yvonne Kinder, Dixie Wilt, Mary Wallace, Janelle Goldsmith, Beth Wicker, Susan Short, Linda Reed, Sandra Bennett, Pricilla Scott, Wanda Walters, Beatrice Haggart, Sharon Alcorn, Dorothy Goode and Glenda Reed.

## Midwest Blizzard Kills 17

### Kansas City Area Has Heaviest Snow Storm in 46 Years

KANSAS CITY (AP) — Kansas City and environs are digging out from under 15 inches of snow today after the worst blizzard in 46 years.

The storm left 17 dead in Kansas, Missouri, Iowa and Illinois as it whipped northeastward last night.

It left 10 to 12 inches of snow in southeastern Iowa, northern Illinois and southern Wisconsin before blowing itself out along the Great Lakes.

Most of the deaths were attributed either to accidents on slick roadways or heart attacks after shoveling snow or bucking drifts. There were three in Kansas, five in Missouri, three in Iowa and six in Illinois.

The storm concentrated its worst punishment on an ellipse straddling the Missouri-Kansas line and bounded by Topeka, Kan., and St. Joseph, Lexington and Butler, Mo. Topeka is 68 miles west of Kansas City, St. Joseph is 55 miles north, Lexington is 40 miles east and Butler 70 miles south.

Most of this area got at least a foot of snow. Omaha, Mo., 38 miles east of Kansas City, had 18 inches. Kansas City's 15 was the greatest snow depth since a two-day, 25-inch storm in March 1912.

A frigid paralysis still gripped the Missouri-Kansas area today. Nearly all the schools were closed.

Industrial plants were shut down.

Snow drifts up to six feet deep blocked five major highways: U.S. 36, U.S. 24, U.S. 40, U.S. 50, and U.S. 71. Other main arteries were reduced to one-way traffic in spots.

The snow let up in Kansas City at 5:40 p. m. after twenty-six hours. Thirteen inches fell in the final 12 hours, an all-time record. Wind gusts up to 40 miles an hour whipped it into drifts and cut visibility at times to less than a block. Temperatures were in the low 20s.

Main thoroughfares here were packed trenches only two lanes wide between high ridges of plowed snow at the curbs. Most side streets still were impassable, cluttered with abandoned cars.

## Storm Leaves Three Dead in Wisconsin

MILWAUKEE (AP) — The worst snowstorm in five years roared into southeast Wisconsin yesterday, leaving three men dead of heart attacks and 8-10 inches of new snow on the ground.

At the federal weather station at Mitchell Field Airport, eight inches of new snow was measured officially and added to a three inch accumulation that gathered on Monday, left a total of at least 11 inches on the ground.

# President Dispatches Dulles to Middle East

## Snow Doesn't Stop Them

### Newspaperboys Get All Deliveries Made

On the morning after the big storm, The Democrat-Capital is giving a hearty pat on the back to the newspaperboys in Sedalia and the surrounding territory.

All Democrat routes in Sedalia were delivered Tuesday afternoon with the newspaperboys overcoming the snow and cold to do the best job possible under the trying circumstances and many obstacles.

With all regular means of transportation at a standstill, the Democrat circulation department resorted to its own means of delivery and sent cars loaded with carrier bundles to all towns in its territory which receive the afternoon paper.

A truck driven by Henry Gordon reached LaMonte, Knob Noster, and Whiteman Air Force Base, while Byron Barber delivered bundles to Smithton, Ottumwa, Syracuse, Bunceton, Tipton, and California.

Lester Murray, contract driver, successfully delivered papers to Marshall, Sweet Springs, Houstonia, and Hughesville and finally was stopped by a snow drift two miles west of Georgetown. Wrecker attempts to extricate the car were given up at 2 a.m. this morning. The car was freed today.

Windsor, Lincoln, and Warsaw bundles were delivered by Joe Forsee, while Russell Petree and Morris Potter successfully delivered all 60 bundles to Sedalia newspaperboys.

Mail subscribers will receive their paper as soon as possible, and according to Postmaster Mau-

## Trailer Units Are Stalled During Storm

Over 100 tractor-trailer units were "tied up" at the junction of Highways 40 and 65, Tuesday night, by the State Highway Patrol. In Sedalia approximately 30 drivers of such units parked and remained over night here.

On Highway 65, about 11 miles north of Sedalia, a large International truck skidded on the slippery pavement and overturned on the east side of the highway.

The State Patrol checked the wreck but was unable to locate the driver, nor was the name of the owner on the truck. It remained off the highway and the attention of the Patrol was turned to assisting other persons in immediate need of help.

During the day and night the local State Troopers cruised the highways, assisting motorists by pulling them back on the highway when it could be done without the necessary aid of a wrecker, or calling wreckers to those who needed them.

Warnings were issued to motorists who insisted in trying to "make it through" regardless of road conditions, the Patrol urging them to stay off the highway, especially at night. In many instances, the Patrol took motorists from their cars and brought them to town to contact wrecker services or locate rooms to stay overnight.

## Bond Issues Approved In Special Elections In Missouri Tuesday

KANSAS CITY (AP) — Bond issues carried by big margins Tuesday in special elections in Missouri. Raytown school district voters approved a \$750,000 bond issue, 207 to 6. The money will be used for a junior high school and the purchase of additional school sites.

Independence voters approved, 314 to 6, a \$600,000 bond issue for school improvements and additional classroom space.

Two revenue bond issues at El Dorado Springs, totaling \$331,000, were approved by majorities of two to one. The money will be used for city light plant and water and sewer system improvements.

## The Weather

Fair to partly cloudy tonight; considerable cloudiness and continued cold Thursday; low tonight near 5; high Thursday near 30.

The temperature at 7 a.m. was 7 above zero, which was the low for Tuesday night, and at 1 p.m. it was 26. Total snowfall 13 inches, with 1.08 inch of moisture content.

Stage at Lake of the Ozarks 56.0, fall 1.1.

## He Expresses Deep Concern For Security

### Secretary of State To Attend Meet In Turkey Next Week

WASHINGTON (AP) — President Eisenhower dispatched Secretary of State Dulles to the Middle East today with a declaration of "deep concern" for the security of Communist-threatened countries in the area.

At the same time Eisenhower made a new pledge of "unwavering support" for the defense principles of the Baghdad Pact.

Dulles conferred with the President for 30 minutes some two hours in advance of his scheduled departure for the Middle East.

He will attend a meeting of the five-power Baghdad Pact at Ankara, Turkey, next week. He will be an observer there, and not an official participant, since the United States is not a member.

In a statement on his talk with Eisenhower Dulles said Middle Eastern countries are under "the threat of Communist imperialism" and the United States is "glad to help them" in their collective self-defense effort.

In that connection Dulles cited the Middle East resolution of last March asserting an American policy of defending the whole Middle East area against Communist aggression. The resolution was passed by Congress and signed by the President.

Shortly before Dulles went into his meeting with the President—which followed a session of the National Security Council — the State Department denounced as "totally false" a Soviet charge that Dulles is planning to force U. S. missiles bases on Middle Eastern countries.

## Folsom Hopes Indians Will Whip Palefaces

MONTGOMERY, Ala. (AP) — Gov. James E. Folsom of Alabama threw in a couple of war whoops for the embattled North Carolina Indians today and said he hopes they'll continue to whip the pale face.

After reading about latest developments in the Indian-Ku Klux Klan battle, Folsom issued a statement saying "The white man has mistreated the Indian for 400 years. This is one time I'm glad to see and hope the Indians continue to beat the pale face."

Armed Indians broke up a Klan rally near Maxton, N. C. last Saturday night when they learned the demonstration was intended as a warning to them against race mixing.

## Europe Is Not Exempt From White Blizzard

LONDON (AP) — A blizzard dumped 18 inches of snow today on the white cliffs of Dover and elsewhere along Britain's southern coast.

High winds piled up five-foot drifts in Kent, south of London. Many villages were isolated and traffic in Dover, Folkestone and Margate was at a standstill.

More than 100 passengers on a ship from France were held up at Dover for hours because a train could not get through.

## After Outbreak of Rioting

### Dusk-to-Dawn Curfew Is Imposed in Caracas

CARACAS, Venezuela (AP) — A dusk-to-dawn curfew was in effect in Caracas today and government troops were ordered to fire on anyone disturbing the peace after an outbreak of rioting and shooting during a general strike.

(Reports reaching Washington said 20 persons were killed and 100 injured in street fighting in a workers' area of Caracas yesterday. They said 1,000 persons were arrested after the clash. Strict censorship prevailed.)

(The U.S. State Department said there were no reports of any Americans being injured or American property damaged. About 40,000 Americans live in Venezuela and U.S. investments there total about three billion dollars.)

The strike was called by underground opponents of President Marcos Perez Jimenez, who three weeks ago survived a short-lived revolt by the Air Force and some

Army units. Since then Caracas has been in a continual state of tension.

The Interior Ministry claimed the people had not responded to the general strike call. In a nationwide broadcast the ministry conceded there had been "disorders and offenses" in Caracas and disturbances in Los Teques, Valencia and Pueblo Nuevo but said the rest of the nation was normal.

Business in downtown Caracas began closing about noon and crowds gathered in the city's main square. Heavily armed police used tear gas to clear the square after the crowds taunted them with antigovernment slogans and stoned buses.

A 6 p.m. to 5 a.m. curfew was placed on Metropolitan Caracas. Military units patrolling the capital "have orders to fire on any element that tries to hurt property or persons in any way," the government broadcast said.

## Travel Expense Claim Involved

# Fraud Charge Filed

JEFFERSON CITY (AP) — James T. Riley, Cole County prosecuting attorney, charged today the St. Louis County sheriff, Orion J. Litzinger, stole \$261.60 of state funds last year by submitting a false travel expense claim.

The charge was filed in Cole County magistrate court this morning after Riley had consulted earlier with Atty. Gen. John M. Dalton and the St. Louis County prosecutor about the case.

Litzinger is accused of submitting a travel expense claim for a guard identified as F. V. Ellison covering \$150.10 for the guard's meals and \$111.50 for his lodging when in fact the guard was not Ellison.

The complaint filed today does

not identify the person Litzinger took with him to California last spring to return a prisoner. Riley said he did not have to prove that, merely show that Ellison was not the guard.

But Riley said he had evidence that the person who accompanied the sheriff was his wife.

The charge is based on a trip Litzinger made to Los Angeles to return Floyd O. Julian, who was wanted on a first degree murder charge. Litzinger was appointed as the governor's agent to make the trip last March 19 and authorized to take a guard with him.

He returned the prisoner to the St. Louis County jail April 7 and two days later made out the

ceived at the governor's office April 22, approved by Gov. James T. Blair and paid.

Riley charged that Litzinger "well knew that his representations were false and designed to deceive 'the state of Missouri.'"

A St. Louis County grand jury recently investigated various charges against the Republican sheriff but returned no indictments against him.

Today's charge was the outgrowth of a series of conferences at the attorney general's office here.

Riley said he assumed Litzinger would surrender and come here for a preliminary hearing unless he wants to waive the preliminary.

# Says Nation Should Get On With Job

WASHINGTON (AP)—Rep. Mahon (D-Tex.) said today the nation should "face the future and get on with the job" of surpassing Russian missile and satellite gains.

Mahon, chairman of the House Defense Appropriations subcommittee, talked with newsmen as the House called up for expected unanimous passage a \$1,410,000,000 money bill to help speed U.S. defense preparations.

The total includes the full \$1,260,000,000 in new funds asked by President Eisenhower and authority to transfer another 150 millions — 40 millions more than Eisenhower asked — of available funds to missiles and other newer programs.

An agreement to take no roll call votes until Thursday this week delayed final House action on a bill to raise the national debt limit to \$230 billion dollars from the present 275 billions.

The House shouted down a move aimed at holding the increase to three billions.

Rep. Martin (Mass.), House Republican leader, urged Republican members "not to put our own administration in a strait-jacket" by rejecting the increase.

"We must face the fact that we have realities to consider," he said in reference to expected increases in defense costs.

Rep. Byrnes (R-Wis.) contended the boost would encourage more spending. Rep. Mason (R-Ill.), agreeing, blamed the high debt level on "both the New Deal spenders and the Modern Republican spenders."

Little opposition was expected to the defense money bill, and Mahon expressed confidence "we can meet the challenge to our country."

While "our intelligence people have become aware of a previous miscalculation of Soviet progress," Mahon said, "by no means have we fallen on our faces."

"Despite the mistakes of the past this country has made great progress. . . It has been substantial. But we must move much faster."

There were no major amendments in sight to alter the allotment \$1,410,000,000 total. About half would go for missile speedup and half for construction of missile-carrying submarines and new facilities for the Strategic Air Command's "alert" networks.

# Woman Jet Pilot Sets New Record Of 1,000 MPH

SUFFOLK COUNTY AIR FORCE BASE, N.Y. (AP) — Ruth Nichols, 56, pioneer woman flier, flew an Air Force jet yesterday faster than 1,000 miles an hour at an altitude of 51,000 feet.

The flight was reported to have set women's records for speed and altitude.

Miss Nichols and Col. Fred D. Hook Jr., commanding officer of this Air Force base on Long Island, flew in a two-seated trainer version of the F102 Delta Dagger, a supersonic fighter-interceptor plane.

They were in the air about 50 minutes, according to Hook, and took off and landed at the base.

Air Force officials said the previous records were set in 1956 by Jacqueline Cochran when she flew a Canadian F86 Sabre Jet 754 miles an hour at 48,069 feet.

Hook said Miss Nichols, who began flying in 1919, was at the controls except during takeoff and landing and when the plane was on instruments. The flight, he said, was cleared with Air Force officials at the Pentagon.

"It was simply wonderful," Miss Nichols said on landing. "Flying supersonorically is like lying in a cradle. I felt absolutely nothing except my own excitement and emotion at having made the flight."

# Seven Pound Son Born To Third Grade Pupil

SAN JOSE, Calif. (AP) — A 10½-year-old third-grade pupil gave birth to a seven-pound son yesterday, County Juvenile Officer Muriel Wright reports.

Miss Wright said the boy was born in a Catholic hospital in San Francisco, where his mother was taken after she was declared a ward of Juvenile Court.

A 28-year-old laborer and relative of the girl by marriage, Harold Lee, faces a Superior Court trial March 4 on charges of lewd conduct with the child. He denies her accusation that he is the father.

The youngest mother recorded in medical history was a 5½-year-old Peruvian.

**BEACHED BED**—Preparing for a snooze in the open air, actress Virginia Maskell brushes the sand from her feet prior to getting into her Victorian brass bed on the beach of the island of Tortola, British Virgin Islands. The bed is an important item in the new movie, "Our Virgin Island," being filmed on location there. The film deals with a newly married couple who start life on a deserted island with the antique bed as their only possession.

# Says Adams May Become Chief Critic

WASHINGTON (AP)—Sen. McNamara (D-Mich.) suggested today that Presidential Asst. Sherman Adams may be supplanting Vice President Nixon as the Republicans' chief opposition critic in this year's campaign.

McNamara said Adams' attack on the Democrats in a Minneapolis speech Monday night indicates "Adams is taking over the role Nixon is abandoning."

"We could expect something like that," McNamara said. "Nixon is running for president and Adams isn't, so Adams is the logical man to blast at us."

"I think he made a terrible mistake in the kind of an attack he made on the Democrats. He gave a lot of people who are trying to be nonpartisan in a national crisis a shove in the wrong direction."

While President Eisenhower was urging nonpartisan consideration of defense matters, Adams implied the Democrats were to blame for Pearl Harbor, the "tragic loss" of China, the Communist invasion of Korea, "the eight years irretrievably lost" after World War II in development of missiles, and subsequent cuts in Eisenhower's military budget.

Some Democrats said this appeared to be a substitution of a peace-and-security theme for the "soft on communism" charges they contend Nixon used against them in the 1954 campaign. In that year they regained control of Congress from the GOP.

Adams, who maintained a measure of silence during the 1954 and subsequent campaigns, lately has accepted more speaking engagements in which he has combined a vigorous defense of the Eisenhower administration's policies with attacks on its critics.

In contrast to Adams' full-scale criticism of the Democrats, Nixon came up in a New York speech with the commonplace charges that the opposition is too divided to govern effectively and that if the Republicans lose they will be turning control over to self-styled Democratic liberals.

Sen. Mansfield of Montana, the assistant Democratic leader, said in a separate interview all of this demonstrated to him that the Republicans "intend to travel roads, both the high and the low," in this year's campaign.

# Farm Production Up

WASHINGTON (AP) — Agriculture is outstripping the remainder of the economy in increasing its productivity.

Government studies show that during the past 10 years, agriculture increased its productivity an average of 6 per cent a year.

# Women Says Men Better At Driving

LOS ANGELES (AP)—Cathy Cinders may be the most audacious betrayer of her sex since the lady who started the swing toward double chins.

Cathy claims men are better drivers than women.

She may not be able to prove it, but she's not entirely without credentials. For four years, she has been teaching people to drive around Los Angeles — possibly the toughest place to navigate an automobile this side of the Okefenokee Swamp.

Cathy, one of the state's few female driving school professors, hasn't renounced her allegiance to womankind altogether. She says she'll concede that a man's confidence makes him a better driver, but adds that "his stubbornness about learning makes him a poorer pupil."

"I guess a woman learns more easily," she said in an interview, "but a man drives better afterward."

Why? Well, in the first place, Cathy said, women take too much for granted. They'll breeze down a freeway loaded with cars, and they think all they have to do is signal for a lane change and every vehicle in sight will stand on its hood to accommodate them.

"Half the time," Cathy said, "a woman will stick her arm out for a signal and turn the wheel at the same time."

"In an emergency, men react better than women. They handle a car better too."

Frequently, Cathy said, women tend to be overcautious, and poke along so slowly they could be overtaken by octogenarian strollers.

But Cathy wouldn't drop the discussion without a parting shot at the smug male.

"Tell a man something," she said, "and he'll tell you over and over again: 'I know, I know, I know that.'"

"Then he does it wrong."

# Dads Honored at PTA

# Plays and Musical Numbers Presented by Lower Grades

The PTA organizations of the city's schools met Friday afternoon at the respective schools.

The dads of Horace Mann PTA took over at the meeting and proved their versatility with speed and efficiency in conducting the meeting.

Worth Wilson, acting president, recognized the youngest dad, dad with the most children and all granddads. Russell Conn Jr. gave the devotional and Lacey Belt acted as secretary. Announcements concerning the PTA Council Founder's Day luncheon Feb. 5 and the Horace Mann Founder's Day tea Feb. 21 were made by Sam Knapp. Jack Korando, acting civic chairman, announced the Mothers' March on Polio was set for Jan. 29.

The acting program chairman, George Thompson, also had to fill in as guest speaker due to the illness of the Rev. Warren Neal. Thompson spoke on the need of co-operation between school and home whenever problems arise.

A musical program directed by Mrs. Russell Gilmore was presented by the three fourth grades. The program was in the form of a talent show and the numbers were introduced by Ann Sillers, Marcia Miller, Judy Bottcher, Kathy Garrett, Patricia Fuchs, the mixed quartet and the square dancers participated.

Jefferson PTA was presided over by Dick Wasson. The devotional hymn, "From the Heaven Above Us" was sung by the third grade pupils accompanied by Mrs. Martha Owens. Charles Smithers gave the devotional.

Mrs. Evelyn Rabourn introduced the guest speaker, Sgt. C. S. Endicott, safety officer. Troop A, Lee's Summit. He gave a talk on safety and then showed a film, "Chain Reaction" narrated by Bob Hope.

It was announced that the polo drive would be Jan. 29 and the chili supper would be Jan. 30.

Two plays were presented by the third grade under the direction of Elizabeth Higgins. The first play was on cleanliness and the second on good eating habits. Those taking part were: Rhonda Kay Riggs, Janie Bottcher, Sharon Richards, Barbara Vanderpool, James Young, Ray Murray, Ronnie Middleton, Martin Mahken, Linda Kay Kaulen, Linda Gresham, Ronnie Cusick, Susan Davis, Alma McHoney, Steve Lindsey, Francis Watring, Bobby Murray, Jimmy Weathers, David Johnson and Dwayne McNeil. Barbara Vanderpool did a ballet dance between plays.

Refreshments were served by Frank Vanderpool, James Hall, Dick Wasson, Bill Moore, Harold Ryan, Dan Murray and John Engles.

Dr. W. Hobart Hill, director of the Department of Humanities, Missouri Valley College, spoke before a well filled auditorium at the Mark Twain PTA meeting. His topic was "Understand the Delinquent."

Juvenile delinquency is no respecter of income or status. There is no one reason why youth gets into trouble. Anyone or a combination of reasons can cause it. Among these are physical incapacity, lack of mental ability, movement from rural to urban areas to greater economic opportunity, and youth given more freedom than it can handle, broken homes, improper literature, movies, radio and TV and a growing reaction in adults as well as youth against authority. To understand the delinquent, one must understand boys and girls. W. I. Thomas summarizes the things youth wants out of life as, adventure and new experiences, feeling of security, sense of belonging and desire for recognition. If these are not supplied by the family, the youth will find them for himself, often a gang with a questionable leader.

Some suggestions given to aid the parents are: a regular physical checkup for the youth, visit to the child guidance clinic or psychiatrist if need is indicated, letting children know who is boss, developing a home climate with a sense of basic values, make decisions as a family, more recreational facilities, demand higher caliber leadership in youth activities, and develop youth councils.

Dr. Hill was introduced by Mrs. C. C. DeLozier.

Several seventh grade pupils under the direction of Mrs. Payton presented "Preamble of the Constitution" as a choral reading. Jerry Smith and Janie Gray were the solo voices, assisted by six choir voices. In closing they sang "America the Beautiful," accompanied by Mike Johnson.

The PTA prayer was given by Mrs. Ollie Lewis. Mrs. John Van Dyne conducted the business meeting. Mrs. Leonard Woolery reported a membership of 377. Attendance awards were won by rooms three and seven.

Refreshments were served from a lace covered table centered with a floral arrangement. The social chairman, Mrs. William Hopkins, was assisted by third grade room mothers.

The Rev. Edward Sims was the guest speaker at Washington PTA which was held Jan. 17. His topic was "How to Use Our Leisure Time to an Advantage." He showed an interesting film of how one community working together had planned recreation for all age groups.

Mrs. Melvin Lane gave the devotional, "The Light of Christ." Mrs. Bill Garrett presided over the business meeting at which time it was announced the chili supper would be held Feb. 7 at the school from 5 until 9. A Red Cross course will be offered to the parents beginning Thursday evening, Jan. 30.

The first grade pupils taught by Mrs. Lane presented a short exercise after which the fourth grades taught by Miss C. Garman and

# Two Families Escape In Kansas City Blast

KANSAS CITY (AP)—Two families escaped serious injury today when an explosion of undetermined origin leveled their Kansas City home.

Residents of the home were identified as Mr. and Mrs. James Hall and their four children ranging in age from two to 15, and Mr. and Mrs. Charles Kaiser and their one-year-old daughter.

Miss N. Jones sang a medley of songs.

The next meeting will be Feb. 20.

Mrs. Myron Lindquist presided over the Whittier PTA meeting Friday evening. The devotional entitled "When Father Was a Boy" was given by Mrs. L. E. Owens.

Mrs. Grant Cox announced that the chili supper would be Feb. 7. Mrs. Howard Wells announced that a rummage sale would be held Tuesday with proceeds going to Cub Scout Pack 60.

The fourth grade presented a short program with special numbers by Gary Lucky, David Wells and Stanley Moore.

The program was then turned over to Dale Downs, Dad's night chairman. Two films were shown at this time.

Refreshments were served by the hospitality committee.

# IN THE EVENT OF FIRE

The Number for County Residents to Call for the County Fire Department is

**SEDALIA TA 6-6464**

(Should the County Fire Department be out on a fire run, your call will automatically be received by the County Jail and relayed to the County Fire Department.)

To call County Fire Department personnel for anything other than a fire, please call TA 6-7187.

Washington School Parent and Family Life Education Class will meet in school cafeteria 1:30 p.m.

## SATURDAY

Osage Chapter, DAR, meets at 1:30 p.m. at Bothwell Hotel.

# Sanity Hearing Set In Roommate Killing

REDWOOD CITY, Calif. (AP)—A jury which convicted Elaine Soule, 20, of second-degree murder tomorrow begins trying to determine whether she was sane when she battered and knifed her roommate.

The seven women and five male jurors returned their verdict 8 hours and 43 minutes after receiving the case yesterday.

They still have to determine her five years and life — as well as pay her a second time on her plea of innocent by reason of insanity.

Elaine testified she struck Catherine (Kit) Elvins, 19, Seattle, 31 times with an iron, then stuck her 20 times with a butcher knife July 24 in their Burlingame apartment.

# YOUR CHILD MAY HAVE PIN-WORMS

**1 OUT OF 3 DOES!**

Fidgeting, nose-picking and a tormenting rectal itch are often tell-tale signs of Pin-Worms. . . ugly parasites that medical experts say infect one out of every three persons examined. Entire families may be victims and not know it.

To get rid of Pin-Worms, these pests must not only be killed, but killed in the large intestine where they live and multiply. That's exactly what Jayne's P-W tablets do. . . and here's how they do it: First—a scientific coating carries the tablets into the bowels before they dissolve. Then—Jayne's modern, medically-approved ingredient goes right to work—kills Pin-Worms quickly and easily. Don't take chances with this dangerous, highly contagious condition. Get genuine Jayne's P-W Vermifuge. . . small, easy-to-take tablets. . . special sizes for children and adults. Perfected by Dr. D. Jayne & Son, specialists in worm remedies for 100 years.

## Shows Letter From Airman In Typhoon

LONG BEACH, Calif. (AP) — "I'm not giving up hope," says Mrs. Anne Tetzlaff. "Didn't he write that he was going to live?"

Sgt. Kenneth Tetzlaff, one of 10 crewmen aboard a weather plane missing since a week ago while tracking Typhoon Ophelia off Guam, did, indeed, write that "I'm back home. Have slept about 10 hours, so think I'll live."

He also said "Miss you very much, all my love, Ken," in the letter written in the plane at 10,000 feet on one mission to the typhoon.

"It's not supposed to be too rough, even though the winds are around 170 m.p.h.," he said in the letter Mrs. Tetzlaff made public yesterday.

"Later: Hi again. I miss you very much. We just came out of the eye of the typhoon. It was nice, clear and calm in there with the storm all around us," it went on.

Another paragraph said: "We are circling around inside the eye again. Those waves look a hundred feet high. As soon as the weather people get their readings, we'll hit for home."

He told of returning to base, and sleeping, and later wrote another letter, which Mrs. Tetzlaff received the same day, saying he was going to fly back into the typhoon that night.

Search for the plane is continuing, on the strength of faint but persistent radio distress signals of a type from an emergency set like the weather plane carried.

## Arator Club Tacks Comfort for Cramers

Mrs. Marvin May entered the Arator Club of Smithton at her home for the January meeting.

The meeting was opened with the group singing "America" and repeating the Lord's Prayer.

Mrs. Mary Wallace conducted the business meeting at which time hostesses for the year were chosen.

The remainder of the day was spent tacking a comfort for the Omar Cramer family, whose home was recently destroyed by fire.

The next meeting will be Feb. 2 with Mrs. Jim Lacey.

## Mrs. Fletcher Gives Royal Service Program

Mrs. Ivan Grimes, 417 East 15th, entertained the Olive Branch WMS January 15.

The business meeting was opened with a prayer by Mrs. Roy Cunningham. Mrs. Roy Holman presided. It was voted to send the Carver School students a cash offering.

Lunch was served to 12 members and four guests. The Royal Service program was presented by Mrs. T. Fletcher. The devotional was given by Mrs. R. Cunningham. The group sang "Faith of Our Fathers" and "Shall We Gather at the River."

The next meeting will be with Mrs. Hubert Hull, 808 West Sixth.

## Sedaliana Serve With Infantry in Germany

Army Privates Melvin E. Rathburn and Theodore J. Schreck of Sedalia, recently were assigned to the Eighth Infantry Division in Germany.

Rathburn, 23, son of Mrs. Paula C. Rathburn, 1112 East 13th, is a truck driver in Headquarters Co. of the division's Fifth Infantry. He is a 1952 graduate of Smith-Cotton High School and was formerly employed by Contract Steel Carriers Inc., Madison, Ill.

Schreck, 23, son of Mr. and Mrs. Charles F. Schreck, 1420 East Ninth is a gunner in the infantry's Company C. He is a 1953 graduate of Sacred Heart School.

The soldiers entered the Army last May and completed basic training at Ft. Riley, Kan.

## OBITUARIES

### Mrs. Nettie Campbell

Mrs. Nettie Campbell, 76, of 718 East Fifth, died at Bothwell Hospital at 6 a.m. Wednesday.

The body was taken to the Richards Funeral Home, Tipton, to await completion of funeral arrangements after arrival of relatives from out of the city.

### Mrs. Zulu Kuhn Rites

Funeral services for Mrs. Zulu Kuhn, 79, wife of John F. Kuhn, who died at Bothwell Hospital Tuesday morning, will be at 2 p.m. Thursday at the Gillespie Funeral Home, the Rev. William Morgan to officiate.

Russell Maag will sing "What a Friend We Have in Jesus" and "In the Sweet Bye and Bye," with Miss Lillian Fox at the organ.

In addition to the immediate family, Mrs. Kuhn is survived by several nieces and nephews.

Pallbearers will be Walter G. McMillen, Leonard Anderson, Albert Walz, Will Wright, Herbert Wasson and Leo Robb.

Burial will be in Memorial Park Cemetery.

### Mrs. Carrie L. Carr Services

Funeral services for Mrs. Carrie L. Carr, 95, who died Tuesday at Bothwell Hospital, were held at 2 p.m. Wednesday at the Gillespie Funeral Home, the Rev. Floyd B. Buntjen officiating.

Russell Maag sang "Safe in the Arms of Jesus" and "Goodnight, Goodmorning," with Miss Lillian Fox at the organ.

### Arthur K. Jones Services

Funeral services for Arthur K. Jones, 81, 615 North Stewart, who died at Bothwell Hospital Saturday night, were held at the Ewing Funeral Home at 10:30 a.m. Wednesday. The Rev. Henry Hansen, pastor of the East Booneville Street Mission, officiated.

Mrs. W. L. Lewis sang, "In the Garden" and "The Lord's Prayer," accompanied by Mrs. H. O. Foraker at the organ.

Pallbearers were George Dugan, Roscoe Thomas, J. L. Kirkman, Conrad Preisendorfer, Robert Cantrell and Henry Hunt.

Burial was in the Memorial Park Cemetery.

### Mrs. Ida F. Brownfield Rites

Funeral services for Mrs. Ida F. Brownfield, 88, of 623 South Lafayette, who died at Bothwell Hospital Monday morning, were held at the Ewing Funeral Home at 1:30 p.m. Wednesday. The Rev. Leonard Reifel, pastor of the Congregational - Presbyterian Church, officiated.

The Rev. Farrie Cole, Jr., Otterville, sang "Beautiful Isle" and "The Love of God" accompanied by Mrs. H. O. Foraker at the organ.

Pallbearers were Charles Brownfield, Ernest Brownfield, Arthur Hoffman, Joe Retherford, Edgar Urton and John Stahl.

Burial was in the Walnut Grove Cemetery at Booneville.

## Cancel Choral Clinic At Sacred Heart

The choral clinic announced for Wednesday night, Jan. 22, at Sacred Heart School by Dr. Ralph E. Hart, chairman of the division of music at the Central Missouri State College, Warrensburg, has been cancelled. A future date will probably be fixed soon.

In the clinic more than 250 students were expected to participate, they being from schools at Cole Camp, Lincoln, Warsaw, Hughesville, Houstonia, Green Ridge and the Sacred Heart School was to have choruses and glee clubs perform for Dr. Hart. Massed groups and soloists were to perform.

## Meeting Postponed

A combined meeting of the Pet- tis, Benton, Henry, Johnson, Salline and Lafayette-Ray County Medical Societies, which was to be held tonight has been postponed until next Wednesday evening, Jan. 29. The dinner meeting will be held at the Old Missouri Homestead.

## Dr. Hopkins Is Speaker At Optimists

Dr. Spencer Hopkins was the speaker at the Optimist Club Tuesday noon at Bothwell Hotel at which time he showed pictures and told interesting things about the Middle East. Dr. Hopkins took the pictures during his 15 months of sea duty in the U.S. Navy at which time he visited 17 countries.

The pictures, which started with Greece, went into Turkey, where he showed a typical gypsy village on the way to Izmir with huge white sheets forming several tents. These people, he said, live by foraging off the fields and their way of life is very primitive. It was near Izmir, he said, that the Apostle Paul gave some of his first teachings.

Dr. Hopkins said that Turkey is a staunch ally of the United States and appreciated and used well all of the foreign aid given them. The Turks historically are enemies of Russia.

Pictures of the Suez Canal were shown by Dr. Hopkins who said there was desolation on either side. He had pictures of India, Japan and other countries telling a little about each ending with a picture taken near Copenhagen, Denmark, showing Husky dogs and a line of polar bear skins that would later be sent to fine shops in Paris and New York.

The meeting was presided over by Claude Boul with invocation by the Rev. James Schrader. Singing was led by Charles Hanna with Miss Lillian Fox at the piano. The speaker was introduced by Harry Trotman, program chairman.

It was voted by the club to give \$25 a month for the year 1953 to the Crippled Children's Center.

Dr. W. A. Montgomery was a guest of his son-in-law, Dr. C. J. Blaich.

## Sedalian Plays With CMSC Orchestra

Shirley Kirkpatrick of Sedalia has earned a chair in the 55-piece orchestra at Central Missouri State College at Warrensburg where she is a student. Miss Kirkpatrick plays violin.

The orchestra's first concert of the year will be given at an all school convocation at 10 o'clock Jan. 28. Selections now in rehearsal under the baton of Hugh B. Williams are works from Handel, Vivaldi, Mozart, Strauss and Morton Gould.

## Crippled Children To See Color Movie

"Every Child Has a Right," the much-commended color movie of work and progress at the Crippled Children's Center in Sedalia, will be shown Thursday at the noon meeting of Kiwanis. Mrs. Virginia Flower, president of the Center's board of directors, and Mrs. Rudolph Swope, director of the Center, will conduct the program. They will be introduced by George H. Scruton, program chairman.

## Pvt. Williams Assigned To Eighth Division

Pvt. James F. Williams, 23, son of Mr. and Mrs. George W. Williams, Green Ridge, recently was assigned to the Eighth Division in Germany.

A member of Company D in the division's 5th Infantry, Williams entered the Army last May and completed basic training at Ft. Riley, Kan.

### Thinking Thumbers

GREENSBORO, N. C. (AP) — There's more than one way to use a thumb in hitchhiking.

Three little military cadets, ignored by automobiles on a main thoroughfare as evening approached, stationed themselves beside a pedestrian crossing. When an automobile approached, they pushed the button that puts on the red light for traffic.

One of the halted motorists re-lented and gave them a ride.

**MOVIE MAKER**—A "producer" since he was 7, Charles Russell, above, a high school sophomore in Canton, Ohio, has just completed his third film, "Rocket to Mars," which runs 20 minutes. Charles points to the miniature rocket he and his fellow workers used in their science fiction film. Paper-mache Mars and painted space complete the backdrop for the youthful "producer," who is now planning to enlarge his five-man staff to film a new movie entitled "Invaders From Outer Space." From script writing to completion, "Rocket to Mars" took more than six months for Charles and his friends. Charles shot the movie in color on 8mm film. Then he recorded background music and sound effects and synchronized them with the action in the film.

## Daily Record

### Future Subscribers

Son, to Mr. and Mrs. J. C. Goldsmith, 2405 Albert Lee, at 1:24 a.m. Jan. 22. Weight, seven pounds, five ounces.

Son, to Mr. and Mrs. Dallas Walker, 815 South Engineer, at 2:32 p.m. Jan. 21 at Bothwell Hospital. Weight, seven pounds, 12 1/2 ounces.

**BOTHWELL** — Medical: Mrs. Bass Connor, 414 East Seventh; Mrs. Cecil Brumback, Bunceton; Ralph Davis, Wilson Trailer Court; Tommy and Norman Porter, 1912 East 12th; John Wyatt, 700 1/2 South Ohio; Julia Eisman, 1012 East Fifth; Miss Belle Karick, Hughesville.

**Surgery:** Mrs. E. L. George, Whiteman AFB.

**Dismissed:** Mrs. Clara Huff, Syracuse; Ray Russell, LaMonte; Miss Joella Ellington, Smithton; Mrs. Laura Swope, Green Ridge; Mrs. Walter Pauley, 910 South Grand; Mrs. Dan Jones, 1416 North England; Master Richard Miller, Route 4; Mrs. Amanda Clayton, 610 East Tenth; Stephen Kreisel, Hickman Mills.

### Marriage Licenses

Issued Monday at Warrensburg by the office of the Johnson County recorder: Frank E. Schull, 21, Springfield, Mo., and Doris M. Leete, 25, Knob Noster.

### Fires In the City

The fire companies at 6:43 a.m. were called to the 1500 block on West Fourth, where the motor in a Yellow Cab had become overheated. No damage resulted.

### Police Reports

Mrs. L. E. Giffen, 921 West Sixth, reported to the police the white picket fence was broken down sometime between Saturday night and early Sunday morning.

John DeJarnette, 1209 South Montebau, reported the loss of an English book someplace downtown Monday.

Police found the side door to the Edsel Motor Co., Fifth and Lamine, open at 10:17 p.m. Monday. A note was left for the owner and the door was locked by the officer.

A south door to McLaughlin's, Sixth and Ohio, was found unlocked by the police at 11:08 p.m. Monday. The owner was notified and locked the door.

The Nash sedan of Paul Harvey, 109 East 11th, stolen sometime Sunday night, was found abandoned in front of 420 South Quincy, Tuesday morning.

Police were called to the 300 block on South Quincy where boys were reported opening car doors and hopping cars with sleds. They were talked to by officers. The boys denied opening doors.

The front door to the Quinn Shoe Co., 208 South Ohio, was found unlocked at 9:39 p.m. Tuesday by the police. The manager was notified and locked the door.

Bernice Glascock, 307 East Fourth, reported to the police the loss of her car keys someplace between her home and Bothwell Hospital. The key chain has a Missouri Pacific identification tag.

The Rev. R. Watts, Springfield, reported to police he lost a brown leather case with nine keys in it, in the vicinity of South Woodlawn Drive.

### Accidents

No injuries were received in an accident in the 200 block on South Ohio about 1 a.m. Wednesday between a city tractor, being used in cleaning the street, and a 1955 Dodge sedan.

The car, driven by Hurshell L. Ross, St. Charles, Mo., was going south on Ohio, and the tractor being operated by Richard T. Biggs, 301 North Summit, was being backed when the accident occurred. The grill and hood of the Dodge were damaged and no damage resulted to the tractor.

Ross was arrested by the police for operating a motor vehicle under the influence of intoxicating beverage and was fined in police court.

### Police Court

Paul Harvey, 1701 South Marvin, forfeited a \$2 cash bond on a charge of parking over two feet from the curb in the 300 block on South Lamine.

Allan Crouch, Cross Timbers, charged with parking a truck in the residential district, 1400 block South Ohio, between sunset and sunrise, forfeited a \$2 cash bond.

Seven overtime parkers failed to appear in police court and their \$1 cash bonds were ordered forfeited and four others paid the 25-cent fee.

Richard Hartunian, Canoga Park, Calif., charged with speeding 40 miles per hour on Broadway between Beacon and Stewart, forfeited a \$10 cash bond.

James F. Wendt, Whiteman AFB, charged with blocking a sidewalk in the 200 block on East Third, forfeited a \$2 cash bond.

Archie Hughes, 1314 East Tenth, charged with parking in a loading zone over 20 minutes, 100 block on South Osage, forfeited a \$2 cash bond.

Eight overtime parkers failed to appear in police court and their cash bonds of \$1 each were ordered forfeited.

Hurshell L. Ross, St. Charles, Mo., charged with driving a motor vehicle while under the influence of intoxicating beverage, pleaded guilty to Judge Willard Morris and was fined \$75.

Ross was involved in an accident with the city tractor in the 200 block on South Ohio early Wednesday morning.

### In Other Courts

Judgment of \$6,000 was awarded to Curtis Eugene Rehkop of Knob Noster against the Rev. Harry Higgins of Knob Noster, in a suit in Johnson County Circuit Court filed by the boy's father, Leland E. Rehkop, for injuries the plaintiffs allege the boy received when struck by a car on Route J on June 27, 1955.

In a previous trial of the suit, a jury had awarded the plaintiffs no damages. The jury's verdict was appealed to the Missouri Supreme Court, where it was reversed and sent back for retrial. The plaintiffs had asked for \$25,000.

In a second suit, in which Leland E. Rehkop and Helen Rehkop had asked \$25,000 from Mr. Higgins for medical bills and loss of services and companionship of their son, Curtis, the court awarded them \$2,250.

Both judgments were settled.

## Man Who Saw Only Trouble Lands in Jail

IRVINGTON, N.J. (AP) — Robert Edward Naschak, who once voluntarily sought to return to prison because he was afraid of what he would do to society, was back behind bars today.

The FBI charged Naschak last night with the \$19,865 armed hold-up of the Pulaski Savings & Loan Assn. They said the 30-year-old man had threatened to take the life of a woman customer's young daughter while pulling off the robbery yesterday.

It was just eight days after his release on parole from prison.

As a boy of 16, Naschak spat his defiance at Brooklyn Judge Samuel S. Leibowitz, who had sentenced him to 20 to 40 years for a \$4 armed robbery.

He was held in Jersey City in lieu of \$50,000 bail to await the action of a federal grand jury.

FBI agents had found Naschak after the robbery in the home of his sister's friend, Mrs. Stella Bandorovich. They said he was holding the woman and her two sons hostage and had the holdup loot in his possession.

Naschak has a police record dating back to the time when he was 10.

As a babyfaced youth in 1943, Naschak spat in Judge Leibowitz's face.

"Remember me, you rat," the tense boy shouted. "I'll see you in three months."

But it wasn't until 1954 that a then penitent Naschak petitioned the judge for leniency.

Leibowitz set aside the original sentence and made it 15 to 40 years. This made Naschak eligible for parole in 1955, and he was released June 6 of that year.

On Dec. 13, 1955, however, he asked to be put back in prison. He said he was afraid of what he might do. The startled court complied.

Three weeks ago he wrote Irvington Police Capt. Edward Durning that he thought he was now ready for freedom. Durning, who had worked with Naschak since the latter was a boy, helped secure his latest parole.

## Cuba Seeking Recognition For Gambling

HAVANA (AP)—Cuba is bidding for recognition as the world's biggest gambling center.

Millions of dollars, much of it apparently from American underworld sources, has been poured into new hotels and casinos.

That's only half the story. Americans are here angling for new building sites. The prospects are that 100 million dollars will go into more new hotels and casinos within the next five years.

Aside from the regular games, gamblers can invest in cockfights, in a huge national lottery and in jai-alai games.

Oriental Park racetrack in nearby Marianao has night racing. Between races a full-fledged casino operates in the clubhouse.

There are eight big gambling casinos attached to the new hotels or night clubs in Havana. Another will be opened in the 22-million-dollar Havana Hilton Hotel scheduled for completion in May.

Still others go into operation soon at the Hotel Plaza and the new hotels Deauville and Barlovento.

Wherever one does not find a casino, he finds slot machines and nearly every type of gambling on a small, but well-patronized scale. Gambling is legal and is pouring millions annually into the Cuban treasury.

Opening of the Riviera and Capri hotels this winter brought an influx of American gamblers.

Control of Cuba's gambling industry rests in the hands of men from Las Vegas, Detroit, Chicago, Los Angeles, Cleveland, Cincinnati, Washington, New York, Miami and other U.S. cities.

They came into Cuba with the blessing of President Fulgencio Batista.

Santo Trafficante Jr., operator of the casino at the Sans Souci night club, long has been identified with gambling in Tampa, Fla.

He and Joseph Silesi, 61, alias Joe Rivers, of New York, are wanted by the district attorney there for questioning in the gangland killing of Albert Anastasia in New York City last October.

Silesi reportedly has a slice of a casino operation.

Behind the scenes at the Riviera is seldom-seen Meyer Lansky, often mentioned during New York investigations of "Murder, Inc."

The Riviera's casino is managed by Edward Levinson, Las Vegas hotel owner.

The highest waterfall in the world is Tugela in Natal in the Union of South Africa. Its height is 2,810 feet.

## Former Base Is Now Used For Research

HARWELL, England (AP)—A bleak, windy onetime air base nestling in the hills outside this village is now Britain's atomic energy research establishment, where scientists are making vital advances in understanding and using the atom.

The latest of these experiments is aimed at harnessing for peace the immense power of the hydrogen bomb. An announcement of

a victory in this respect is expected Friday.

Harwell is a working community of scientists run the way scientists want it run. Its atmosphere, despite barbed wire and guards, is that of an intellectually high-powered campus.

In 1945, the British government decided on a crash program to give this country peaceful atomic power and its own atom bomb.

But scientists, many of them pulled out of cloistered university lives for war work, were not enthusiastic.

Some top ones insisted they would come only if the center were run by one of their number, Sir John Cockcroft, and not by a government official as a civil service department.

Cockcroft, a homey, mild-mannered physicist and Nobel Prize winner who helped build the first atom bomb, is a representative of a new type of man the postwar years have thrown up: A brilliant scientist and an able administrator, who knows his way around the invisible world of the atom and the high circles of government.

## Woman Dies at 101 After Kerosene Burns

PUEBLO, Colo. (AP)—Mrs. Tiofila Trujillo, who never had been outside Colorado, died in a hospital last night just two weeks after her 101st birthday.

She suffered extensive burns over her body when kerosene she was using to fuel a fire exploded. The blaze in the kitchen of her home was quickly extinguished.

### Holds Pep Meet To Give Team A Royal Send-off

By Jim Couhig

In an effort to relieve the pressure of last week's mid-term exams, and to give the boys' basketball team a royal send-off, the sophomores held a pep assembly in the gym last Wednesday.

Sophomore class president Catherine Mehl called the assembly to order and called upon the cheerleaders to give an assortment of cheers. Then a tape recording of how the College High Colts kidnapped basketball stars Don Resel and Tom Moser was given, with Jim Wiesing portraying disc jockey "Jungle Jim".

A short skit was then presented by the sophomore class showing the ride on the bus to Knob Noster, and the victorious ride back.

The assembly roared with laughter as Paul Bennett, Pat Sparks, Ken Berlin, and Andy Wolfe, imitated the cheerleaders by giving an assortment of cheers, slapstick style.

Catherine Mehl returned to close the assembly by having the school song sung by the students and faculty.

The Australian who led the team working on this is Dr. Peter Thonemann, a tall, bespectacled Melbourne man who lives with his wife and three children at nearby Oxford.

The Canadian is Dr. William Thompson, a 35-year-old Belfast-born British Columbian who came to Harwell from Canada's atomic research station at Chalk River, Ontario.

### State CAP Wing Holds Two-Day Conference

The Missouri Wing of the Civil Air Patrol will hold a two-day conference on Sedalia on Saturday and Sunday, Jan. 25 and 26, at the Bothwell Hotel. The meeting, although for commanders and staff personnel, is open to those interested in the CAP and especially those who are interested in becoming members.

Col. J. O. Ladd, Maryville, is the wing commander with headquarters at the St. Francis Hotel in St. Joseph.

All Missouri squadron commanders with their key personnel are meeting.

Saturday night at 6 p. m. a banquet will be held to which the public is invited. Conference meetings begin at 8 a. m. Sunday and continue through the morning.

## PUBLIC SALE

Due to employment out of the state I will sell at Public Auction at my farm located 10 miles south of Warsaw on 65 highway and 2 miles west of Fristoe (on the old Luther Breshears farm) the following items:

**FRIDAY, JANUARY 24**  
**SALE STARTS AT 10:30 A.M.**  
**134 HEAD OF LIVESTOCK 134**  
**43 HEAD DAIRY COWS**

**HOLSTEINS**  
 3 Holstein Cows, 2 yrs. old, just fresh, milking 5 gal. a day.  
 1 Holstein Cow, 3 yrs. old, will be fresh in May, milking 3 gal. a day.  
 1 Holstein Cow, 5 yrs. old, milking 5 gal. a day.  
 1 Holstein Cow, 7 yrs. old, milking 7 gal. a day.  
 1 Holstein Cow, 7 yrs. old, milking heavy.  
 1 half Holstein, half Angus Cow, 4 yrs. old, fresh and milking 4 gal. a day.  
 3 half Holstein, half Angus Cows, 3 yrs. old, milking 2 1/2 gal. a day.  
 1 Holstein Cow, 2 yrs. old, milking 4 gal. a day.  
 1 Holstein Cow, 3 yrs. old, fresh in Feb.  
 1 half Holstein, half Jersey, fresh, milking 4 gal.  
 1 Holstein Cow, 2 yrs. old, fresh by day of sale.  
 1 Holstein Cow, 5 yrs. old, fresh in March.

**GUERNSEYS**  
 1 Registered Guernsey, 5 yrs. old just fresh, milking 6 gal. a day.  
 2 Registered Guernsey, 4 yrs. old, will be fresh in March, milking 3 gal. a day.  
 1 Registered Guernsey, 2 yrs. old, just fresh, milking 3 gal. a day.  
 1 Guernsey Cow, 4 yrs. old, fresh in May, milking 3 1/2 gal. a day.  
 1 Guernsey Cow, 3 yrs. old, fresh in Feb.  
 1 Guernsey Cow, 6 yrs. old, fresh in March, milking 3 gal. a day.  
 1 Guernsey, fresh in May, 3 yrs. old, 3 gal. a day.  
 3 Guernsey Cows, 3 yrs. old, fresh by day of sale.  
 1 Guernsey Cow, 6 yrs. old, fresh in Feb., milking 4 gal. now.

**JERSEYS**  
 1 Jersey Cow, 5 yrs. old, just fresh, milking 4 gal. a day.  
 2 Jersey Cows, 3 yrs. old, just fresh, milking 4 gal. a day.  
 1 Jersey Cow, 3 yrs. old, fresh in March, milking 3 gal. a day.  
 1 Jersey Cow, 5 yrs. old, fresh in Feb., milking 2 1/2 gal. a day.  
 2 Jersey Cows, 3 yrs. old, just fresh, milking 4 1/2 gal. a day.  
 1 Registered Jersey, 2 yrs. old, fresh in Feb.  
 2 Jersey Cows, 5 years old, fresh by day of sale.

**MILKING SHORTHORNS**  
 1 Milking Shorthorn Cows, 4 yrs. old, fresh in March, milking 2 gal. a day.  
 2 Milking Shorthorn Cows, 5 yrs. old, fresh in April, milking 2 1/2 gal. a day.

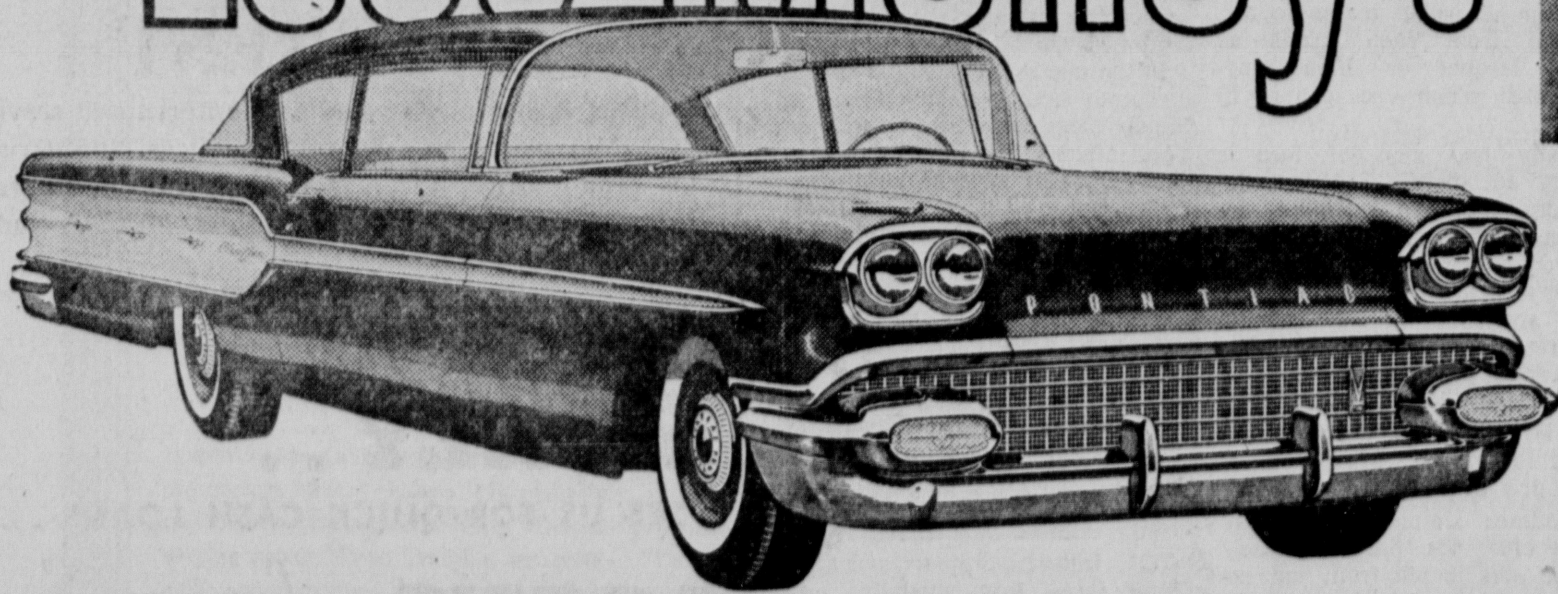

**TERMS CASH**—Nothing to be moved until settled for. Not responsible for accidents.

## Hub Caps And Birds

"Why doesn't someone do something about this automobile hub cap stealing that's becoming too frequent in Sedalia?" is not just a random question heard recently.

Victims are becoming more vocal lately although complaints began several years ago not only in Sedalia but in many other communities throughout the land. Elsewhere various plans were tried to discourage such thievery, but one which seems to have caught on is engraving identifying numerals on the hub caps.

Charles Halbrook is explaining such a plan to various individuals and groups. Having heard it Kiwanis club endorsed the project immediately as commendable. There is no compulsion about having numbers engraved on a car owner's hub caps. He volunteers and gets this engraving service done without charge.

A part of the campaign is to get enough cooperating stations to do this work. Effectiveness of the program will require more than just a few hundred automobile owners supporting it. Halbrook points out that the hub cap problem has its social aspects, too. The highly valuable cap, easily stolen and as easily disposed of, tempts many juveniles to take their first step toward what may become a life of crime.

The main difficulty in combating this type of theft has been the lack of any identifying mark on the hub cap itself. Receivers of stolen goods can buy and sell them without detection. Thus has been created a ready market for busy thieves. Another consequence is that many insurance companies have been

forced to attach riders to their policies excluding from coverage such unidentified accessories.

The current campaign in Sedalia is to arrange facilities for the use of a small engraving tool to mark the hub caps between the rim and valve opening with the last five or six numbers appearing in the Serial, or Motor No., followed by a dash and the year model of the car. This will enable police to make a ready check of suspected stolen property. Would-be thieves seeing the numbers also would be discouraged from removing them since their sale to a "fence" would be minimized. 'Tis said the engraving will not mar the hub caps and that's about the only reason why car owners should be reluctant to have them marked.

Certainly this program has the aspects of discouraging a source of genuine irritability, let alone property loss and expense, in the theft of hub caps which has tried the patience of Sedalians the past few years. The plan's success depends on city-wide cooperation of automobile owners.

While you are making up your mind on this matter, one thing you can do right quick is to examine your bread box for stale bread and your refrigerator for food scraps. This is the snow-time season when the expression, "It's for the birds" really means something, according to Dan Jones, who says the feathered creatures need some quick help to survive or else die by the thousands. Thanks, Dan, for a suggestion which also needs community-wide support.

### The Washington Merry-Go-Round

## High Cost of Run-out Powder on FCC

By DREW PEARSON

WASHINGTON — When the Moulder Committee finally decided behind closed doors to sidestep a penetrating probe of the Federal Communications Commission, it had before it a highly confidential document. The investigation that went into this document cost about \$250,000 and was the chief reason the congressmen decided to duck any detailed scrutiny of the governmental agency which hands out priceless TV and radio licenses.

This column has now obtained a copy of the document. And since the congressmen, by a 6-to-2 vote, chickened out on telling the public the truth, this column will publish pertinent parts of the confidential memo.

It should be noted in passing that Speaker Sam Rayburn, the father of the Federal Communications Commission, last year stepped down from the speaker's rostrum to make a rare and fervent plea that the \$250,000 be appropriated. Last week he made a public statement blessing the committee's run-out.

### The Secret Vote

The secret vote inside the committee to take this run-out powder is important. Two Congressmen, Moss of California and Moulder of Missouri, both Democrats, voted to proceed. All Republicans voted to chicken. They included Heselton of Massachusetts and Hale of Maine, close friends of fellow New Englander Assistant President Sherman Adams, whose wire-pulling with the FCC would have been under scrutiny. Voting with them were Bennett of Michigan and O'Hara of Minnesota, Republicans, with Flynt of Georgia and Williams of Mississippi, two Dixiecrats who denounce Eisenhower regarding Little Rock but try not to embarrass him on anything else.

Any probe of the FCC would have been highly embarrassing, first because the President's brother-in-law was involved; second because Sherman Adams was involved; third, because in at least one case, a member of the Cabinet, Secretary of Commerce Sinclair Weeks, was involved. He and Adams were mixed up in the award of a valuable TV station to the Boston Herald and Traveler in contradiction to FCC precedents and despite a strong recommendation by FCC subordinates to the contrary.

On the Democratic side, Sam Rayburn's nephew, FCC Commissioner Robert Bartley, would have been slightly embarrassed in another matter.

### What Scared Congress

Here are pertinent parts of the confidential memo prepared by committee counsel Bernard Schwartz which scared the living daylight out of the investigating congressmen:

"The Federal Communications Commission is the Supreme Court of the communications industry. . . If the commissioners have acted in a manner that would be deemed improper in a judge they have not lived up to such (judicial) powers. It is proposed that the first subject to be gone into be the conduct of members of the Federal Communications Commission indicating a deviation from the judicial standard which the Congress intended them to follow. . . evidence has been uncovered by the staff which indicated the following:

"(1) A Commissioner was fully reimbursed by the industry for the expenses incurred by him and his wife in attending an industry convention at which he delivered an address. This Commissioner also claimed from and was paid by the government his full expenses (travel and per diem) to attend the same convention. Such a duplication of expense accounts apparently involves a criminal felony in that a 'false, fictitious, or fraudulent' claim was filed against the United States within the meaning of 18 U.S.C. 187 by the Commissioner in question. See also 18 U.S.C. 1001 1914."

NOTE — This refers to Chairman Doerfer's trip, already reported in this column.

### Unjudicial Fraternization

"(2) Members of the Commission have had their room, board, and other expenses (E.G., cafe, valet, golf fees, etc.) paid by the industry while attending industry conventions. At the same time, these Commissioners have claimed and received per diem from the government for living expenses incurred by them in attending the same conventions.

"(3) Members of the Commission have had their hotel bills paid by the industry while attending industry conventions. At the same time they have claimed and received per diem from the government for living expenses incurred by them in attending the same conventions.

"(4) Members of the Commission have had their wives' expenses paid for by the industry for attendance at industry functions.

"(5) Members of the Commission engage in constant fraternization with individuals and corporations who appear as litigants before the Commission."

NOTE — There was evidence that Frank Stanton, head of Columbia Broadcasting, was on intimate terms with an FCC Chairman.

"(6) Members of the Commission have received for their personal use color television sets and other communications equipment.

"(7) Members of the Commission have received free service contracts for their personal television, radio, and hi-fi sets from a company which appears as a litigant before the Commission. These free contracts involve savings of up to several hundred of dollars per year for the particular Commission member concerned.

"(8) Members of the Commission have used Commission telephones (at government expense) to make purely personal telephone calls.

It is important to note that the comptroller general of the United States, in a ruling of December 24, 1957, addressed to Chairman Moulder, has taken a strong position on the propriety of practices such as those just mentioned engaged in by members of the Federal Communications Commission. . . He concludes inter alia:

"The acceptance of the more expensive gifts, the payment of hotel bills and traveling expenses by outside agencies give rise to serious doubts as to their propriety. In our opinion, such practice is not in keeping with the conduct which the public demands of government officials and should not be condoned. . . thus avoiding any appearance of favoritism whatsoever."

This is just part of what the Congressmen decided to whitewash. More will be published later.

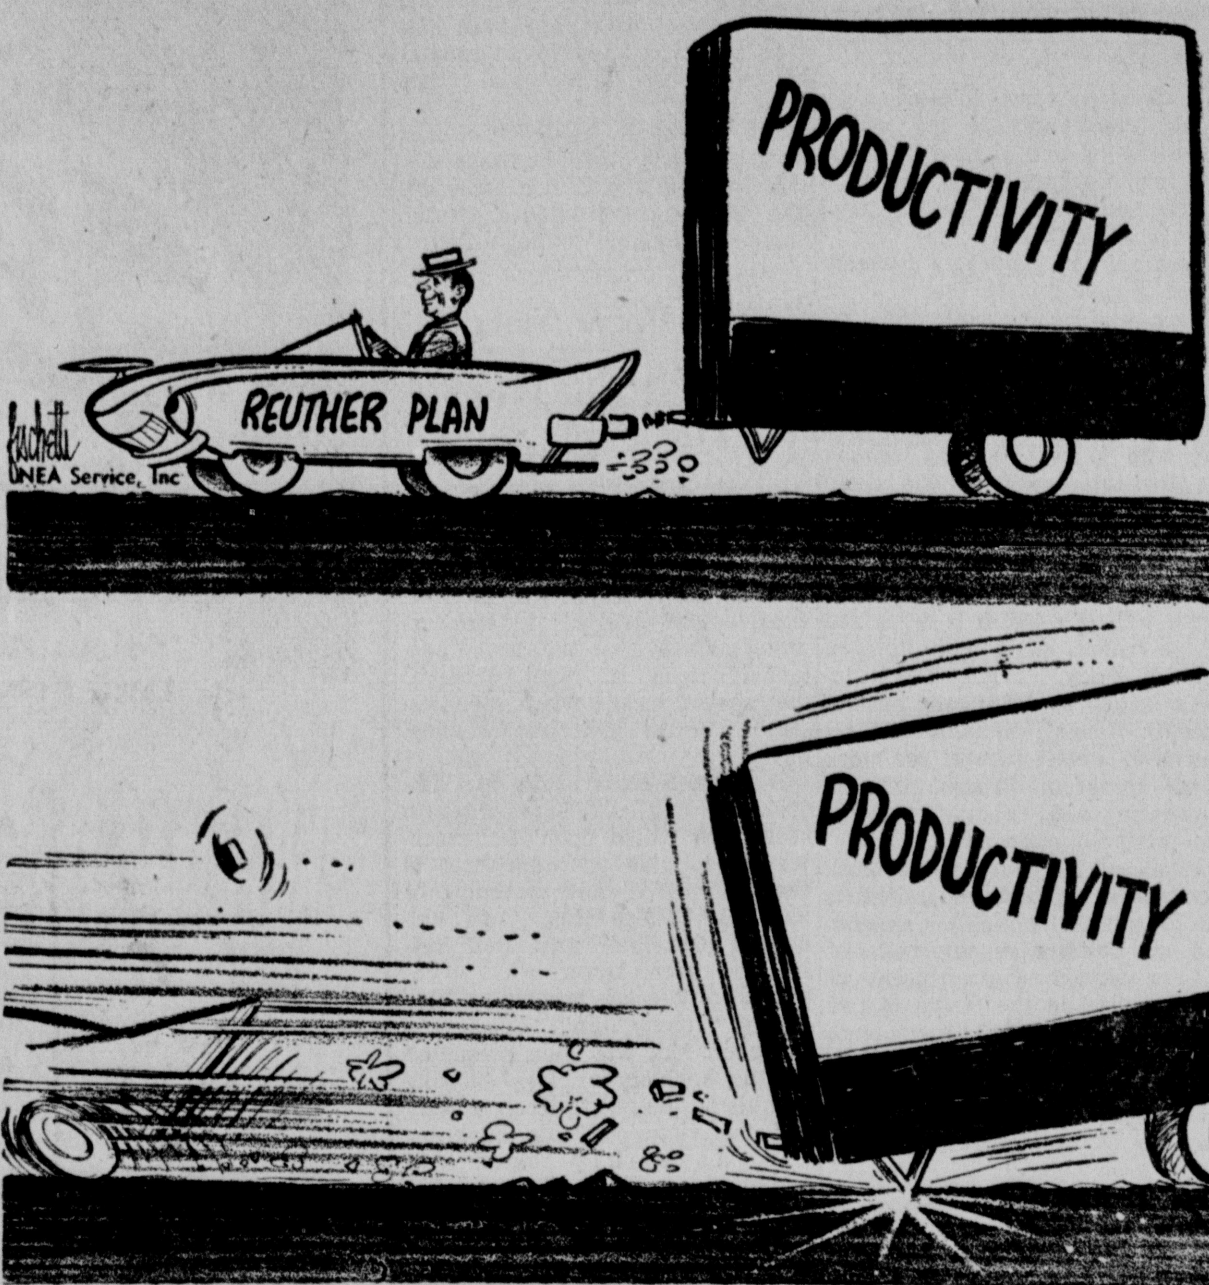

## Income Tax Picture

The House Ways and Means Committee is conducting a series of hearings to determine whether our Internal Revenue Code can be made "fair, equitable and neutral in impact between similar dollars of income."

A New York newspaper reporter is pulling no punches in his series of articles about some of the seemingly unfair taxes allowed or levied upon taxpayers unjustly.

The deductible business expenses are fantastic. There are many loop holes in the tax laws. In many cases the tax load is being carried by those least able to pay. There are instances when a person is forced to sell his house or his business through no fault of his own, but must pay a capital gains tax unless he reinvests within a year, whether he wants another house, or whether another business is available. If one considers the tax unjust then he must hire a lawyer who is a tax specialist to fight the case.

## Traveling Light

### The World Today

## GOP Makes Shambles of President's Plea

By JAMES MARLOW  
Associated Press News Analyst

WASHINGTON — President Eisenhower's own Republicans made a shambles of his plea — wistful, maybe, but not realistic — to keep politics out of the defense problem.

In view of what he knew his right-hand man Sherman Adams was saying at almost the same moment, it's hard to see how Eisenhower could have made the plea at all. Adams played politics with defense as hard as he could.

Only if they were living in a dream world could the politicians of the Democratic and Republican parties be expected to refrain from making political capital out of the defense issue at each other's expense.

The reason is simple: the nation's whole interest is centered on defense, not only in talking and wondering about how it can be made better but why it isn't better. There's ammunition for both political parties in this one.

Neither the Truman nor Eisenhower administrations made the all-out drive on missile development that the nation now realizes should have been made.

Eisenhower said in a speech at a Republican rally in Chicago Monday night: "Our first objective — security and a just peace — is not a partisan or political matter. Americans must never . . . let the issue of security and peace become a pawn in anyone's political chess game."

But Eisenhower's press secretary James C. Hagerty disclosed that before his boss left for Chicago Monday he knew what Presidential Asst. Adams was going to say in Minneapolis Monday night about the time Eisenhower was talking. Hagerty said Adams also knew what Eisenhower was going to say.

## Looking Backward . . .

### TWENTY-FIVE YEARS AGO

Charles O. Botz, president of the Sedalia Chamber of Commerce, attended a banquet at the annual meeting of the St. Louis Chamber of Commerce in that city, being accompanied there by Mrs. Botz and their daughter, Barbara.

1933  
Judge and Mrs. P. S. Warren left for Buffalo, Mo., to attend funeral services there for Guy H. Warren, Mr. Warren's brother, who died in Billings, Mont. Guy Warren was a former Sedalian.

1933  
Frank Markward, publisher of the Pilot Grove Record, and Mrs. Markward quietly observed their 40th wedding anniversary.

1933  
Diamond L. Hutchison was appointed by Dwight H. Brown, secretary of state, as deputy motor vehicle commissioner for this district.

### FORTY YEARS AGO

In fuel conservation as a result of shorter business hours of local stores, shops and other businesses, the Economy Steam Heating Co. reported a saving of ten tons of fuel a day.

1918  
W. M. Johns was in Kansas City attending the annual meeting of the Southwestern Lumbermen's Association.

1918  
Carrying cadet aviators of the Royal Flying Corps from Canada to Texas a special train of five cars passed through Sedalia over the MKT.

What Adams said was plenty. He accused the Democrats not only of not spending enough money on missile development during the Truman administration but of lacking defense strength at the time of the Korean War. And more of the same.

That was not all. Adams in Minneapolis, like Eisenhower in Chicago, was addressing a Republican dinner. But other big-wheel Republicans were addressing other Republican dinners elsewhere around the country.

Secretary of Commerce Weeks in Tulsa, Okla., called the Democrats hypocrites for attacking — as they have done — the Eisenhower administration's defense record.

At Des Moines, Iowa, Secretary of the Interior Seaton blamed the Democrats for chopping over 2½ billion dollars from Eisenhower's defense budget in 1957.

And Sen. Potter (R-Mich) told

Republicans at St. Joseph, Mich. Soviet ascendancy in the missile race was the fault of the Truman administration.

Democrats — who will face the Republicans in the 1958 congressional elections — have heaped blame on the Eisenhower administration for the failure of the Russians in missiles.

And it's a pretty certain bet politicians of both parties will be heaping blame on one another at least until next November.

Last Nov. 16 the Democratic Advisory Council shoved a harpoon into the Eisenhower administration with this charge: "This is no time for complacent reassurances on the state of our defenses. We have had too many reassurances in the past five years—reassurances which are now shown not to have been justified by the facts."

At each meal may be of help. In a problem such as that presented by Mrs. R. so many substances are involved as to make it quite difficult. She can hardly avoid all of them; neither is it likely she can be desensitized to so many things.

Perhaps she has exaggerated or is overpessimistic. In any event she certainly needs a lot of help.

### Dr. Jordan Says

## Woman of Many Allergies Poses Unusual Problem

By Edwin P. Jordan, M.D.

A distressing letter comes from a reader, Mrs. R., who says that she is allergic to dust, silk, kapoc, cigarette smoke, perfume, soap and "food." She also writes that she has a great deal of difficulty with shortness of breath.

It is apparent that the writer of this letter is in a pretty bad way. Whether all her symptoms are the result of an allergy or not is uncertain, although it does appear that she is allergic to an enormous number of substances. But I cannot believe that she has trouble from all kinds of food.

The problem is certainly complicated and the correspondent must resign herself to many studies, tests and, probably, difficulties in management.

Assuming that allergy is involved in her difficulties I shall make a few general remarks about the subject.

First, allergy is defined as an increased sensitivity to some foreign protein. This protein can be contained in foods, inhaled in the form of pollen or mite air, obtained from such things as weeds, lacquer or almost anything with which one comes in contact.

If only one kind of food is causing an allergic reaction the difficulty can be controlled by avoiding that food. In some cases, however, a person may be sensitive to wheat or milk, both of which are used in the cooking and preparation of so many foods that a real problem exists.

The management of food allergy is difficult. The first problem is to find out what food, or foods, are at fault.

Sometimes simple dislike may give a clue. The patient himself may be able to tell from sad experience what foods (like shrimps or strawberries) always give trouble.

The history of reactions is important. In other words, a person ought to know pretty well what he or she has eaten at a meal which was followed by hives or other signs of food allergy.

Skin tests of various foods are commonly used, but are not always completely reliable and it requires an expert to interpret them.

Trial diets, which include or exclude suspected foods are often helpful in finding the foods responsible. A food diary in which

a record is kept of the foods eaten at each meal may be of help.

In a problem such as that presented by Mrs. R. so many substances are involved as to make it quite difficult. She can hardly avoid all of them; neither is it likely she can be desensitized to so many things.

Perhaps she has exaggerated or is overpessimistic. In any event she certainly needs a lot of help.

## Thinking It Over

By Robert L. Diefenbacher, D.D.

Visibility is very important to pilots of airplanes. Although there are many electronic aids to fliers in their course through the skies and in their approaches to landing strips they must still be able to see the ground before actually setting down the ship.

In the moral and spiritual sphere of human activity many people go blindly along ways best by temptation. Much of the time they make out well with unseen moral controls. However, there is as much need for clear vision before one takes off and lands in the spiritual realm as in the material world. We need more than casual intuition.

We must seek God's guidance in everything we do. . . We must be sure that we have adequate moral and spiritual vision in order to not miss the straight and narrow runway. A loss of spiritual vision can be disastrous.

The United States averages 175,000 forest fires annually.

### LITTLE LIZ

With the advent of space travel, it won't be long before everyone can take an out-of-this-world vacation.

## Dodging a Dilemma

## Congressman Not Anxious To Press Probe of FCC

By JOSEPH A. DEAR  
Of Our Washington Bureau

WASHINGTON — Just about everybody, not excepting many members of Congress, has been pressuring the Federal Communications Commission.

FCC is the government agency that hands out licenses to operate television stations. In theory the air waves belong to you and me, and the FCC is our representative. But in practice a TV license is equivalent to ownership, and licenses are bought and sold.

Recently, for example, Columbia Broadcasting bought the TV station operated by the Philadelphia Bulletin. The price was \$20 million. The equipment of the station isn't worth anything approaching that sum. But the operating permit is.

The Commission, which is supposed to operate as a judicial body, has come in for increasing criticism. A thorough investigation of it is overdue. An investigation of sorts is underway by a House Interstate and Foreign Commerce subcommittee. Morgan Moulder (D-Mo.) is chairman.

But Mr. Moulder is having his difficulties. The full committee is reluctant to grant his group subpoena powers. One possible reason for the reluctance is that many members of Congress have brought pressure to bear on the FCC. That would be apparent if the investigation is pushed. (Rep. Moulder, incidentally, wants to proceed and let chips fall where they may.)

If the investigation is pushed, it will inevitably involve the conduct of the Commissioners. Here are some items that have been uncovered so far:

FCC Chairman John Doerfer has at least twice journeyed to the West Coast to industry sponsored conventions. The industry associa-

tion indirectly paid the living expenses of Doerfer and his wife on the Coast, and also their travel expenses to and from Washington. In addition, Doerfer drew expense money from the government for the trips.

Moulder's subcommittee sought the opinion of the General Accounting office as to the propriety of this procedure. GAO advised that Doerfer's action was not only improper, but apparently illegal.

Whether or not that is so, there can hardly be any question about the impropriety of the act. How can the chairman of a quasi-judicial commission properly accept money from an association controlled and financed by the very people who have an interest in the disposition of cases pending before the commission?

As has been indicated, a TV license in the right area means big money. Here's an illustration of why that is so: The Dumont VHF station in Pittsburgh was sold for \$9 million. At the time it was asserted the price was too high. But the buyer made more than \$9 million, after taxes, from the station in two years. Though the circumstances were unusual, it is apparent that \$9 million was a bargain price.

When that kind of money is involved, and when the public as a matter of law has a direct interest in the disposition of TV permits, it would seem crystal clear that the FCC should do everything possible to protect its integrity.

Yet FCC Commissioner Richard Mack told an investigator for the Moulder subcommittee that he had committed his vote on a pending case before his appointment to the Commission. This case involved the award of channel 10 in Miami to National Airlines.

Surely an investigation is in order, if only to clear the air.

### Ruth Millett Says

## 'Live It To The Full' Is Best Resolution For 1958

For any woman 1958 will be a better year if—

She sets at least one major goal for herself so that she will be working toward some end, instead of just living through 341 more days.

She eliminates enough of non-essential activity to enjoy the things she does and to appreciate some of the wonder and beauty of the world around her.

She begins to act on the theory

that today is much more important than tomorrow and that it is foolish to keep putting off until some future time the things she wants to do for herself and for others.

She makes up her mind that, since she can't change the persons she has to get along with either at home or at work, she won't let them annoy her to the point where they make her miserable.

### Accepts Herself

She learns to like whatever age she is, which isn't too difficult since all ages have their rewards as well as their problems.

She sets reasonable instead of impossible standards for herself, so that she isn't forever frustrated because she can't do this or that as well as someone else.

She sets her own pace and decides for herself what is important and what is unimportant instead of trying to keep up with the Joneses.

She learns to laugh, easily and often, especially at herself and at minor "catastrophes."

She doesn't make her work harder by dreading it, putting it off, complaining about it or telling herself she will never get it done.

She sometimes stops to remind herself of all the reasons she has for being thankful the rest of 1958.

# Pettis County's Traffic Safety Record Better Than in 1956

The traffic record for 1957 in Pettis County and its adjoining seven counties had its bright spots as far as Pettis County is concerned, but for the eight-county area it turned out gloomy. This rang true especially in the fatality rate, Pettis County having but five deaths compared with 11 in 1956, while the area report shows 76 killed during the year against 60 the previous year.

The seven other counties are Benton, Henry, Johnson, Lafayette, Saline, Cooper and Morgan.

The State Highway Patrol reports from Lee's Summit show Pettis County's record was a definite improvement over 1956. For the 12 months of 1957 there were 190 accidents, five persons killed, 121 persons injured and property damage \$123,293, a decrease in each incident over 1956 when there were 218 accidents, 11 persons killed, 140 injured and property loss of \$133,516.

The other counties displayed an improvement in one item and reversed things in another.

The over-all eight-county area report is saddened with the increase of 16 persons killed in traffic accidents. There were 1,404 accidents, 979 persons injured and property damage soared upward \$66,201, the loss being \$863,738. The 1956 report shows 1,238 accidents, 929 persons hurt and property loss at \$797,537.

What looks especially good for Sedalia and Pettis County is the fact the December, 1957, toll dropped below that of 1956. This past year there were 19 accidents as against 30, no persons died of a traffic accident as against four, and property loss down to \$8,675 as against \$22,450.

The area report was good for the month with 120 accidents against 122, three persons killed as against seven, 102 hurt as against 104, and property loss this past year was \$75,935 as against \$88,070.

Six of the eight counties are in Troop A, and two in Troop F.

According to the annual reports of Captain G. W. Pate of Troop A and of Capt. Paul E. Corl of Troop F, a decrease was shown in Troop A, while Troop F showed an increase.

Capt. Pate reports 3,271 accidents were investigated by the Patrol during the year of 1957, in the 13 mid-western counties of Missouri outside of cities of 10,000 or more population. There were 3,279 accidents investigated during the corresponding period in 1956. 136 persons were killed as compared to 148 for the same period in 1956. 2,228 persons were injured

as compared to 2,226 and the property damage was \$1,905,126 as compared to \$1,853,056 for 1956. Seven counties showed a decrease, five counties showed an increase in the number of persons killed, and one remained the same.

Capt. Corl reports that 1,904 accidents were investigated by the Patrol during the entire year of 1957 in the 13 counties of the troop area (outside of cities of 10,000 or more population). There were 1,810 accidents investigated during

the corresponding period of 1956. Eighty-eight (88) persons were killed as compared to 77 for the same period of 1956. One thousand, three hundred fifty-two (1,352) persons were injured as compared to 1,331 and the property damage was \$1,096,549 as compared to \$987,257 for the corresponding period of 1956. Five counties show an increase in the number of persons killed to Jan. 1, 1958, six counties show a decrease, and two are the same.

## Cranfill Boy's Photo Appears in Newspaper

A picture of Dennis Cranfill, five year old son of Mr. and Mrs. Robert Cranfill, 2014 South Missouri, appeared in the Jan. 6, issue of the Press-Telegram, Long Beach, Calif., taken with Walter Applebury, one of the "old timers" at Knott's Berry farm. Dennis and his parents were on a vacation trip in California when a newspaper photographer saw the boy and asked him to pose with the "old timer" in front of a baggage car. Dennis obliged and got his picture in the Long Beach paper along with the bewhiskered Applebury with his old time Western outfit including his holster and his guns.

Out in California a former Se-

PEACE POSTAGE — Commemorating the recent Asian-African Peoples Solidarity Conference held in Cairo, this new Egyptian stamp features the traditional peace symbol—a white dove with olive branch.

dalian saw the picture, noted that it clipped it and sent it to the Sedalia Democrat-Capital.

## Insurance Man Back From Week's Training

Albert W. Allgaier, 1214 Liberty Park Blvd., local insurance agent for Farmers Mutual of Madison, Wis., has returned from a one-week insurance training school held at the home office in Madison. As one of 22 agents from eight midwestern states who were invited to the school, he received training in automobile, other casualty, fire, sickness and accident, and life insurance.

Invitations to the school were extended to successful multiple line agents who have demonstrated outstanding sales ability. Allgaier has been a full time Farmers Mutual agent here since Aug. 15, 1957.

## WAKE UP RARIN' TO GO

Without Nagging Backache Now! You can get the fast relief you need from nagging backache, headache and muscular aches and pains that often cause restless nights and miserable tired-out feelings. When these discomforts come on with over-exertion or stress and strain—you want relief—want it fast! Another disturbance may be mild bladder irritation following wrong food and drink—often setting up a restless uncomfortable feeling. Don't's Pills work fast in 3 separate ways: 1. by speedy pain-relieving action to ease torment of nagging backache, headache, muscular aches and pains. 2. by soothing effect on bladder irritation. 3. by mild diuretic action tending to increase output of the 15 miles of kidney tubes. Enjoy a good night's sleep and the same happy relief millions have for over 40 years. New, large size gives money. Get Don's Pills today!

## Late Producer Said Public Wanted Hope

HOLLYWOOD (AP)—Pioneer producer Jesse Lasky once gave this observation of film making: "The public wants sheer entertainment with a little uplift, a little hope. It does not want depressing stories, unhappy endings (with an occasional exception) and it does not care much for fantasy."

"But that is only a formula. To find stories that contain those elements is another matter."

Lasky devoted the last 25 years of his life to such a quest. Broke and removed as head of Paramount, which he helped found, he devoted his intense enthusiasm to finding suitable film subjects and selling them to the studios and the public. As long as he kept his formula in mind, he generally succeeded. He often failed when he attempted something apart.

One of his first films as an independent was "The Power and the Glory," which told its story in flashback after the death of the hero, a technique later used by others. The film started Spencer Tracy on the road to stardom.

Lasky had signed tenor Nino Martini at Paramount, later dropped him when he couldn't find a film for him. At Fox, he starred the singer in "Here's To Romance," a commercial failure.

Undaunted, Lasky tried again with "The Gay Desperado" when he joined forces with Mary Pickford to produce movies. This time, Martini paid off as a big hit.

During a lull in producing, Lasky decided to dip into radio. He promoted a show called "Gateway To Hollywood," in which unknowns were given a chance to act dramatic roles opposite well-known stars. Two of the winners were Josephine Cottle and Lee Bonnell, who got married and now have four children. Mrs. Bonnell is better known as Gale Storm.

The producer got back into films in a big way with "Sergeant York." He followed this with two other successful biographies at Warner Brothers—"The Adventures of Mark Twain" and "Rhapsody In Blue," the George Gershwin story.

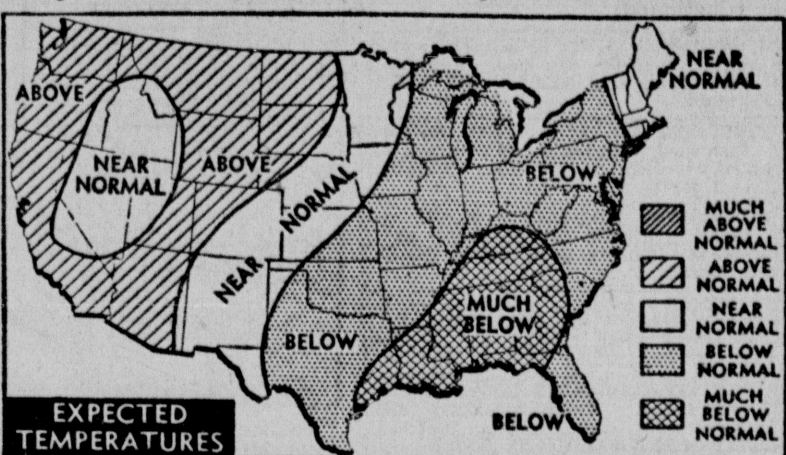

Taking his company to RKO, Lasky starred Claudette Colbert and John Wayne in a rollicking comedy, "Without Reservations."

The next film was not such a hit. Lasky had bought the novel "Miracle of the Bells" and decided to cast the bobbysox idol, Frank Sinatra, in the nonsinging role of a priest.

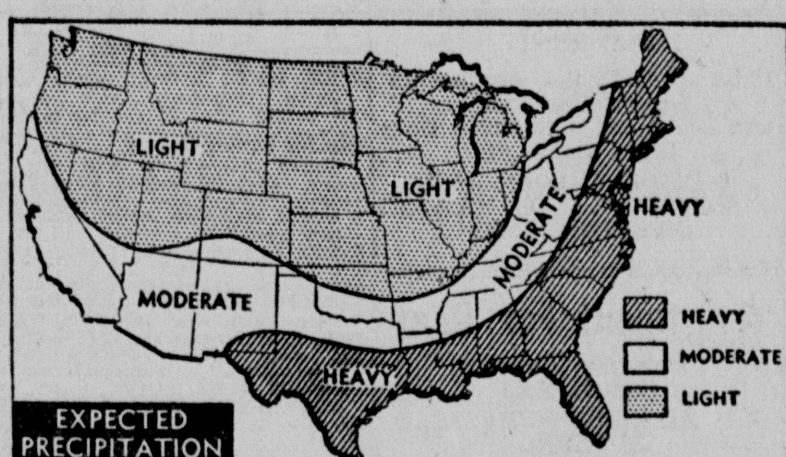

"It was good showmanship and it was a mistake," Lasky recalled. "Frank gave a perfect performance, but bobbysoxers who had come expecting their idol to sing were so disappointed that their word-of-mouth publicity undoubtedly discouraged others from seeing it."

## Lots of Weather

The weather maps, below, give you the U. S. Weather Bureau's long-range forecast from now until mid-February. It is not a specific forecast in the usual sense, but an ESTIMATE of average temperatures and precipitation for the period.

Temperatures from now until mid-February are expected to average below seasonal normals over the eastern half of the nation, except for near normal in New England. Greatest departures are indicated in states bordering the Gulf of Mexico. Over the western half of the country near to above normal temperatures are expected to prevail.

Precipitation is predicted to exceed normal in Gulf Coast states and along the Atlantic seaboard with considerable snow from Virginia northward. Subnormal amounts are indicated over the northern half of the country from the Great Lakes westward to the Pacific Northwest. Near normal amounts are in prospect for other areas.

## Ike Warning Points Up Two Problems

By SAM DAWSON  
NEW YORK (AP)—President Eisenhower's warning that if the price-wage spiral zooms recovery from the recession could be slowed or even prevented points up two of today's worrisome problems:

1. Widespread wonderment that prices can continue to rise or even be maintained when factory sales are falling and production being cut back.

2. The long list of labor contracts to be hammered out this year, largely on the touchy issue of further wage hikes during a recession.

Of the first, business point out that many of today's price rises, especially at retail, are of the delayed action kind and due to rising costs all along the line over past months.

Prices on some primary industrial materials have been falling along with output. In other cases prices have been maintained by cutting back production until inventories are trimmed. In still others the reason given for rising prices in a declining market is that higher operating costs make them necessary if the company is to break even and thus survive.

The battle over profits and wages and prices doubtless will get hotter as the year goes on.

It has been set off already by the auto workers demands, including a profit-sharing scheme. The auto industry's contracts with 655,000 workers expire in May.

Altogether, contracts involving pay of more than 1½ million workers come up for negotiations this year. Included are coal miners, longshoremen, dress makers, and workers in the aircraft, electrical, textile, communications, machinery, paper, farm equipment and glass industries.

Added to these negotiations on wages are a long list of automatic raises this year, decreed in contracts signed in the past.

And if the cost of living rises high enough wages will go up for many workers in the aircraft, chemical, machinery, auto, farm equipment, steel, meat packing, metal working, transportation and electrical manufacturing industries.

That is why the President is concerned and why many businessmen look with a worried mind at their profit and loss prospects.

## Smith-Cotton Receives A Special Citation Of Merit From CARE

Word has just been received by the CARE office in Kansas City of a campaign done for CARE by the students of Smith-Cotton Junior-Senior High School. The total raised was \$275 which will forward 2½ tons of food overseas through CARE.

This gift will forward 20,000 glasses of milk, 20,000 bowls of cornmeal, and 20,000 hearty cheese sandwiches overseas. The food will feed 275 families of four persons for one month—a total of 1,100.

The money was raised, according to Miss Janelle Goldsmith, secretary of the Senior Student Council, on Dec. 20. Each home room in the school was solicited and the students went without refreshments at their annual Christmas parties.

The school will be given a special citation of merit by the CARE office in Kansas City for outstanding service and cooperation with CARE. CARE sincerely hopes that letters of thank-you will be returned from overseas and that the students will start corresponding with their gift recipients.

## Low Gas Cloud Ignites Tuesday Amid 70 Autos

FARMINGTON, N.M. (AP)—Gas, lying like a low cloud in a large natural depression, exploded late yesterday as a string of about 70 cars started through it. Twelve persons were injured, seven seriously.

The blast knocked June Gorman, Farmington, from her car as a sheet of flame flashed over a three-acre area.

She was among 150 construction company employees leaving a plant being built on the desert about 30 miles southeast of here.

Paul Miller, 50, Denver, a safety engineer for the company building the plant, said the car in which he was riding ran down into the gas in the depression and stalled. He said he and the others in it shoved that car and two others out and then signaled the other cars to stop on the plant side of the depression.

A spokesman for the company having the plant built said someone left a valve open on a liquified gas line leading from the plant, and the gas leaked out to the hollow. He blamed a spark from a car for the explosion.

Miller said there were no cars in the gas when it exploded.

## Waterspout Ashore, Hits Trailer Camp

COCOA BEACH, Fla. (AP)—A water spout came ashore near here as a miniature tornado yesterday and brought small havoc to a trailer camp. No one was injured.

The sudden storm narrowly missed Police Chief Bob Blair as he chased a speeding motorist. Watchers saw the storm strike the highway just after Blair passed. The officer said later he caught the motorist, who had reached a speed of 100 miles an hour.

## Army Helicopters Arm To Display Ability

FT. RUCKER, Ala. (AP)—Army helicopters armed with machine guns and rockets displayed new-found combat ability in a demonstration yesterday of experiments in firepower.

Military and Pentagon officials watched the display.

The use of weapons on helicopters is still in the experimental stage and a variety of armament systems are to be mounted for tests, military officials said.

## Eight Slot Machines Go On Trial Monday

LOUISVILLE, Ky. (AP)—Eight slot machines go on trial Monday on charges of being used for gambling.

First Asst. County Atty. Sal Pinto sued the machines under a statute which says if a jury finds the machines "were used or intended to be used for the purpose of gambling, they shall be condemned and forfeited."

Asked if the machines had employed counsel, Pinto replied: "Rather than take advantage of the machines, I have brought in the owners to represent the machines."

Two Veterans of Foreign Wars posts were named codefendants.

## Screen Actors Banned At Republic Pictures

HOLLYWOOD (AP)—Members of the Screen Actors Guild won't be able to work for Republic Pictures or its television subsidiary beginning in March.

The guild, which issued its cancellation notice yesterday, said Republic failed to negotiate for additional payments to actors appearing in a block of films recently released for televising over NBC-owned stations.

Republic said it will not comment until the cancellation order, effective in 60 days, has been officially received.

## Low Gas Cloud Ignites Tuesday Amid 70 Autos

FARMINGTON, N.M. (AP)—Gas, lying like a low cloud in a large natural depression, exploded late yesterday as a string of about 70 cars started through it. Twelve persons were injured, seven seriously.

The blast knocked June Gorman, Farmington, from her car as a sheet of flame flashed over a three-acre area.

She was among 150 construction company employees leaving a plant being built on the desert about 30 miles southeast of here.

Paul Miller, 50, Denver, a safety engineer for the company building the plant, said the car in which he was riding ran down into the gas in the depression and stalled. He said he and the others in it shoved that car and two others out and then signaled the other cars to stop on the plant side of the depression.

A spokesman for the company having the plant built said someone left a valve open on a liquified gas line leading from the plant, and the gas leaked out to the hollow. He blamed a spark from a car for the explosion.

Miller said there were no cars in the gas when it exploded.

## Waterspout Ashore, Hits Trailer Camp

COCOA BEACH, Fla. (AP)—A water spout came ashore near here as a miniature tornado yesterday and brought small havoc to a trailer camp. No one was injured.

The sudden storm narrowly missed Police Chief Bob Blair as he chased a speeding motorist. Watchers saw the storm strike the highway just after Blair passed. The officer said later he caught the motorist, who had reached a speed of 100 miles an hour.

## Army Helicopters Arm To Display Ability

FT. RUCKER, Ala. (AP)—Army helicopters armed with machine guns and rockets displayed new-found combat ability in a demonstration yesterday of experiments in firepower.

Military and Pentagon officials watched the display.

The use of weapons on helicopters is still in the experimental stage and a variety of armament systems are to be mounted for tests, military officials said.

## Actor to Pay Wife \$2,050 for Support

LOS ANGELES (AP)—Actor Cameron Mitchell will pay his estranged wife \$2,050 monthly temporary support pending agreement on a property settlement.

Under an agreement announced yesterday she will receive \$1,300 a month for herself and \$750 monthly for their four children.

Mrs. Johanna Mitchell sued the actor for separate maintenance last June, charging cruelty.

A certified copy of said order has been recorded in the office of the Recorder of Deeds of Pettis County, Missouri, in Book 493 at Page 499 by or on behalf of said surviving spouse who claims said real property, and all other property described in said order, under Section 473.090, RSMo.  
All persons having claims against the decedent or his estate, except creditors having a lien against said real property, and all other persons interested in said estate are required to petition said Probate Court for the appointment of an executor or administrator of said estate within three months after January 8th, 1958, the date of the first publication hereof, or be forever barred from asserting any right or claim against the real property herein described.  
(Seal) ILLA RYMER, Clerk  
Probate Court of Pettis County, Missouri.

The fellow with plenty of pull is not necessarily the man most likely to succeed in the stubborn drawer department. It takes a smooth approach to deal with this common furniture problem.

## Wax, Grease Will Solve Jammed Drawer Difficulty

By MR. FIX  
Distributed by NEA Service

The time to fix drawers that stick is before it becomes necessary to demolish a piece of furniture. Here's how to tackle the situation:

Sticking drawers will generally respond to treatment with a lubricant. Paraffin, wax or a solid grease, generally sold in stick form will do the job. Paraffin on bare wood, grease on paint; that's the rule-of-thumb for application.

Apply the lubricant along the drawer edges and along runners. Give special attention to those points that seem to stick most often.

Leveling, along with lubricating, is another simple remedy that should be tried before resorting to surgery. A simple spirit level will tell you quickly if furniture is not level.

The difficulty could be in either the floor or the furniture. A thin wedge of wood or cardboard at one or more corners will usually correct the situation.

If those two treatments fail, you will have to remove some excess wood from the drawer. Remove the wood only from points of contact.

Try using sandpaper, a file and a plane, one at a time, and in that order. If you are lucky, you will be able to stop after the sandpapering operation.

If the drawer's sides are too high for a smooth fit, remove the wood from the top edges where there's plenty of wood to remove. NOT from the narrow bottom edge.

If you must lift the drawer slightly to close it completely, remove wood from the back of the bottom edge.

Loose joints can cause trouble. If that's the difficulty, you'll have to take the drawer apart and reassemble it.

Remove the nails, sand the joints and reglue. Work on a level surface and make certain all joints are square.

If a drawer is jammed you of course have had it before first-aid can do any good.

In that case, the better way to get at the jam is to first put a hand in the drawer if it will open at all, to check on possible objects that might be holding the drawer partially shut.

If you can't dislodge them, or if the drawer is just plain stuck, remove the back from the piece of furniture.

Try and empty drawer of its contents. If there's no visible cause for jamming, chances are the wood has swelled due to moisture.

A blast of warm air directed into the drawer for an hour or so from a hair-dryer may dry the wood sufficiently to remove the drawer.

**Baptism of Fire**  
CARLSBAD, N. M. (AP)—Firman Bob Stockwell was baptized in a most unorthodox manner recently while fighting a fire in the First Baptist Church here. Wearing a gas mask, Stockwell was crawling on the floor hunting for the flames when he fell into the baptistry.

Q—Is there any way to keep snow from sticking to shovels and scrapers?—W. C.

A—Wax them before using several times each season. Let tools stand outdoors a few minutes to cool before beginning your cleanup chores.

## NOTE ON FIX-IT FORUM

Mr. Fix is unable to answer directly individual questions from readers. However, in "FIX-IT FORUM" he will answer the most interesting and the most frequently asked of questions received during the week.

## Canine Knows Which Airline Gives Biscuit

**FAITHFUL WELCOMER:**  
Queenie performs for airline hostess Eleanor Mercier at Muscle Shoals, Ala., airport. The dog greets only Eastern Airlines planes.

**MUSCLE SHOALS, Ala. (AP)—**In a kennel of mutts, Queenie would be just another dog, he's short on blood lines but long on the finer sensibilities.

Queenie is 10 years old and she knows her way around. She also knows which side her dog biscuit is buttered on.

For almost her entire life, Queenie has been a mascot at the Muscle Shoals Airport. When she first showed up, she was befriended and provided a home by Charles Ashley, Eastern Air Lines agent. She early displayed that enduring and endearing canine trait of loyalty, he'd run out and meet only Eastern Air Lines planes.

She soon became a familiar sight along the runways and it wasn't long before she found out that a pooch could mooch a meal from any Eastern plane that stopped over at Muscle Shoals.

It also wasn't long before Queenie became a mother. She set up housekeeping far down the field and airport attendants have counted more than 10 litters as Queenie's contribution to the dog population of Alabama.

Queenie never lets her young ones get too close to a plane. When there's begging to do from an airline hostess, she does it herself.

Ashley believes Queenie recognizes Eastern planes by their sound, color, and general appearance — and also by the fact that handout for her.

No one has taken the trouble to teach her the tricks as old as dogdom. Even so, Queenie rolls over, stands on her hind legs and skips around, or climbs the scale of barks for a handout. She never tries to board a plane; she just stands at the foot of the ramp and begs until she is fed.

By and large, she's not much to look at — just a mongrel with all the characteristics of a mutt. As for personality, though, she's queen size.

## LAND SALE

In order to settle the Estates of the late R. E. Paul and Dollie Paul, deceased, we will sell their Flat Creek farm, at public auction, containing 150 acres, more or less, located on U.S. Highway 65, three miles South of Sedalia.

PLACE AND DATE OF SALE

At family residence across highway from Flat Creek Inn on

SATURDAY, JANUARY 25, 1958, at 2 P.M.

DESCRIPTION

Flat Creek crosses about the center of the farm. About 100 acres of bottom land. 9-room full basement, modern home; electricity, gas and water system, deep well with new electric pump. Out buildings consist of barn, silo, cattle feeder, chicken house and garage.

PROCEDURE OF AUCTION

Tract West of road containing approximately 50 acres with residence and improvements will be first offered and next land East of road, containing approximately 100 acres with hay barn and granary, then both tracts offered as a whole. Inspection of farm invited at any time prior to sale.

TERMS

10% down — balance when buyer's attorney approves abstract of title.

POSSESSION

March 1st or date sale closed.

Hal Boyle's Column

Spirit of American Rangers' Founder Has Continued On

By HAL BOYLE  
NEW YORK (AP)—A great leader never quite dies altogether. He lives in a spirit he kindled among those who followed him.

So it is that, in a very real way, William Orlando Darby, founder of the American Rangers in World War II, is still very much alive, although he died two days before that war closed.

"Even after all these years we can't think of him as dead," said Charles Contrera, who served as driver-interpreter for the brilliant young West Pointer from Fort Smith, Ark., whose career was ended at 34 by a German artillery shell on the Italian front.

"To us he was almost like a god. To the men he seemed superhuman. He was wounded three times, but we never really believed he could be killed—he had been through so much."

Hollywood recently "discovered" Col. Darby, an officer many believed was destined to be Army chief of staff, and Warner Brothers has told part of his story in a notable film of battle action called "Darby's Rangers."

Other night, now 38, Contrera is an upholsterer by trade. He and his wife, Lucille, have bought a home and are hoping to adopt a baby.

He rarely fights the war anymore — "except sometimes at night in his sleep," said his wife — but when he does think of it, his thoughts turn always to Col. Darby.

Charlie was one of the first to volunteer when Darby was given the assignment of creating an elite spearhead force for the Army, a force comparable to the U. S. Marines, but smaller.

Contrera landed with the Rangers in Africa, but it wasn't until after the group had stormed the beaches of Sicily that he came to know Darby well.

"He wanted a driver who could also act as an interpreter," Contrera recalled, "and when I told him I could speak a couple of Italian dialects he said, 'Get behind the wheel. Let's go.'"

"I didn't know what that would mean to me—or I might have kept my mouth shut. We lived on the front line. We were in tight squeezes all the time."

"The Colonel liked to do his own reconnoitering for his night attacks. When we couldn't go any further by jeep, we'd climb aboard donkeys. And when we got to places in the hills where even the donkeys balked, we'd jump off and go on by foot."

Contrera remembers later in Italy how, day after day, he had to speed his jeep across a 75-yard open area of road swept by machinegun fire.

"The colonel got a kick out of timing the enemy fire and beating it," he said. "We could see the bullets kicking up dust behind

us, but nothing ever bothered him. And, somehow, I felt safe with him."

Only one time did Darby ever lose his composure. That was at Cisterna, on the Anzio beachhead, when a German division surrounded and largely destroyed two battalions of Rangers as he was trying to break through to their rescue.

"When he was told the men couldn't infiltrate back because they were trapped," said Contrera, "the colonel put his head down on his arm and cried for several moments. He broke down. He had always put the safety of his men first, and he couldn't stand the thought of what was happening to them."

"But none of us ever blamed him. It wasn't his fault." The last time Contrera ever saw Darby was when the colonel came to Camp Butler in North Carolina.

"He never made a speech to us — just talked to us one by one, or in small groups. He was very sad."

After 11 months on the Army general staff in Washington, Darby returned to the Italian front as deputy commander of the 10th Mountain Division. A German shell killed him soon after, as he was inspecting frontline positions. "I have never before or since, looked up to a man as I did to him," said Contrera. "After his death they made him a brigadier general, and that was nice of them. He was all soldier."

American families use almost 95 quarts of milk per family annually for breakfast cereals alone.
